WELCOME

**WELCOME TO THE 2019
ENTREPRENEUR & INVESTOR
LIFE SCIENCES SUMMIT**

On behalf of BioUtah and the Technology and Venture Commercialization office of the University of Utah (TVC), we welcome you to the 4th annual Entrepreneur & Investor Summit. This conference was originally established to highlight Utah’s life sciences companies and to bring together companies seeking investment and investors seeking to invest. We also feature programming designed to help foster the entrepreneurial spirit and educate on practical applications of business development.

We have a strong lineup of panels, speakers and roundtables designed to address the topics of the day and to share insights and experiences that will help any developing company. The life sciences sector in Utah is the fastest growing of all such sectors in the United States. Much of that is attributable to the healthy business environment that encourages innovation and the resulting startup and early stage companies. TVC is one of the top technology transfer offices in the United States and is proud that the majority of the technologies they offer are related to the life sciences arena.

In this Summit we put on display 10 early-

stage companies that reflect that very entrepreneurial spirit. They will present to a panel of judges with three companies chosen to present to the full Summit with a winner chosen from among the three. We invite all to participate in the pitch track and learn about these exciting companies.

We are fortunate to have speakers and panelists from both in state and out of state. We hope through your participation you will depart with newly acquired knowledge and perspectives that will spur your own entrepreneurial desires and motivation. In the process we hope to further educate the investment community of the many opportunities that exist here in the state of Utah for deploying capital to support early stage companies.

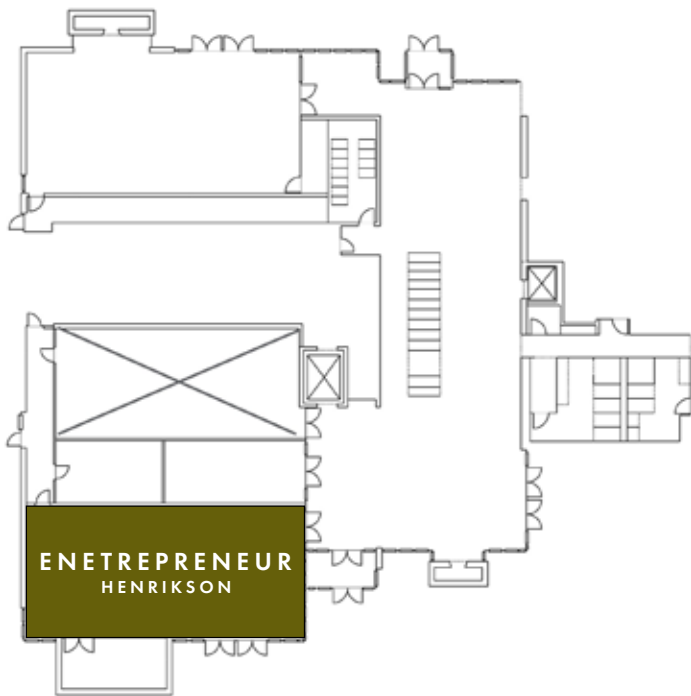

Each year we hope to continue to grow the scope and participation in this conference. We very much appreciate your participation in our 2019 Summit and trust that your experience will be enriching and enlightening.

SUMMARY BIOGRAPHIES

SCAN FOR COMPLETE
BIOGRAPHIES

MICHAEL BELLIN

DEALS PARTNER, PwC

Mike is a Partner in PwC's Deals practice, with over fifteen years of experience advising multi-national public and private clients, reporting under US GAAP and/or IFRS, with capital market transactions and through complex accounting and reporting issues, while based in the United States, the United Kingdom, France and the Netherlands.

MARK BONHAM

OF COUNSEL, STOEL RIVES

Mark Bonham serves as co-chair of the firm's Technology & Life Sciences Practice and focuses his practice on providing corporate legal counsel to technology, life sciences (biotech and medical device), software, Internet, and venture capital companies and emerging businesses.

RACHAEL M. BUSHEY

PARTNER, PEPPER HAMILTON LLP

Rachael M. Bushey is a partner and chair of Life Sciences and vice chair of the Health Sciences Department of Pepper Hamilton LLP, resident in the Philadelphia office. She also is a member of the firm's Executive Committee. Ms. Bushey represents public and private life sciences companies in connection with mergers and acquisitions, complex divestitures and carve-out transactions, a variety of capital markets transactions, Securities Exchange Act work, corporate governance and collaboration agreements.

KELVYN CULLIMORE

PRESIDENT & CEO, BIOUTAH

Kelvyn has served as President/CEO of BioUtah since October 2018. Prior to that he served for 25 years as president and CEO of Dynatronics Corporation, a publicly traded medical device manufacturer. Currently, he serves on the company's board of directors. Kelvyn served on the boards of MDMA in Washington D.C. and the Utah Technology Council. From 2004 to 2017, he served as the first mayor of Cottonwood Heights.

IGOR DACRUZ

SENIOR VICE PRESIDENT, SILICON VALLEY BANK

Igor DaCruz leads the Biotech and Diagnostics practice for the Southwest geography, including Utah. His specialties include providing financial solutions for high growth public and private life science companies with a focus in venture debt. For 35 years, SVB has helped innovative companies and their investors move bold ideas forward, fast. With commercial, international and private banking services, SVB helps address the unique needs of innovators.

JEFF ERICKSON

DIRECTOR OF BUSINESS DEVELOPMENT, CARTA

Jeff is an experienced entrepreneur and the founder of a successful consumer goods company that was ranked #138 on the Inc. 500 list of fastest growing companies. Jeff served as CEO and as a member of the Board of Directors during his tenure with the company, which was eventually sold to a public company. Prior to founding his own company, Jeff was a partner at Beanstalk Partners where he led the sales and business development activities.

bright ideas

CREATING AND PROTECTING IP VALUE.

We advise companies from start-ups to global leaders in prosecution, defense and protection. We blend technical acumen and business savvy to achieve practical results, which makes us an asset wherever you do business.

ROB ETHERINGTON

PRESIDENT/CEO, CLENE NANOMEDICINE; CHAIR, BIOUTAH

After 23 years working in the biopharma centers of the Bay Area, Basel, Switzerland and New Jersey, Rob moved Clene Nanomedicine, a clinical-stage biopharmaceutical company, to Utah from Palo Alto in 2014. Rob began his pharmaceutical career in sales and marketing at Parke-Davis. He was the founding Director of Marketing during the IPO year of Swiss-based, Actelion Pharmaceutical.

GREG FREDDE

EXECUTIVE VICE PRESIDENT OF BUSINESS DEVELOPMENT, MERIT MEDICAL SYSTEMS

Since joining Merit Medical in 2003, Mr. Fredde has participated in nearly 100 transactions with a total transactional value of nearly \$1 billion and contributing over \$450 million in annual revenues. These transactions have included equity investments, distribution agreements, asset and stock purchases, and technology transfers. Mr. Fredde has also led on-site integration teams for Merit's acquisitions.

SHAWN FOJTIK

PRESIDENT/CO-FOUNDER, CONTROL MEDICAL TECHNOLOGY & DISTAL ACCESS

Shawn has 100+ combined issued and pending patents and is co-founder of Distal Access, Control Medical, CIRCA Scientific, Pinyons, and others with sales and marketing experience at GE Medical, Boston Scientific, and Black & Decker. His experience includes devices for cardiology, interventional radiology & oncology, electrophysiology, surgery, enteral feeding, and other procedures and he has closed transactions with Boston Scientific, Covidien, Mallinckrodt, and others.

Proud supporter of BioUtah and the life science community

JOHN HALLINAN

CHIEF BUSINESS OFFICER,
MASSBIO

John Hallinan joined MassBio in 2012 as the Chief Business Officer and oversees the MassBio Innovation Services programs. John's fiscal experience in the life sciences and software industries reflect positions of increasing responsibility across a broad range of strategic and operational disciplines. His background encompasses venture financings, corporate development, technology licensing, and mergers and acquisitions.

MARC HIXSON

PRESIDENT & CEO, COEUS
CONSULTING GROUP

Marc has over 20 years' experience in the pharmaceutical/biotech sector. In 2009 he founded the Coeus Consulting Group, a boutique life science strategy consulting firm supporting pharmaceutical, biotech, medical device, and payors in the U.S. The company creates tailored solutions that drive business strategy and impacts the bottom line with a focus on phase II clinical trials through commercialization. Marc enjoys providing strategic insight and guidance to entrepreneurs and startups.

ANH HOANG

CO-FOUNDER AND CHIEF SCIENCE
OFFICER, SOFREGEN MEDICAL

Anh is a co-founder and chief science officer of Sofregen, an early commercial stage company focused on leveraging silk protein to restore soft tissue volume defects. The company received two FDA clearances for soft tissue support including the first FDA cleared product made from reconstituted silk protein to restore phonation to the vocal fold. Prior to Sofregen, Anh completed her postdoc at Harvard Medical School and her Ph.D. in material science at Vanderbilt University.

SPENCER HOOLE

CO-FOUNDER AND CEO,
DIVERSIFIED INSURANCE

Spence has spent his 26-year career working with and insuring VC-backed, private equity-financed, IPO and public companies, particularly in the technology and life sciences industries. He has insured 21 out of the last 26 IPO companies in Utah. He specializes in Cyber Risk, Errors and Omissions (E&O), Venture Capital Asset Protection (VCAP), and Directors and Officers (D&O) liability coverage. In 2001, Spence co-founded Diversified Insurance Group. He co-founded the Summit Directors and Officers Conference and has co-chaired the event for the past 18 years.

JEREMY KOFF

PRESIDENT, COLIBRI PARTNERS

Seasoned medtech executive with 20+ years' experience in providing comprehensive business and strategic services to early and mid-stage companies. Areas of expertise include clinical and technology assessments, market analysis, financial and business modeling, valuation, risk analysis, business plans, private placement memorandums, investor presentations, advisory board formation, key opinion leadership development, and more. Extensive personal network covering all areas of medical device commercialization.

DON HULET

MANAGING DIRECTOR, PwC

Don is a managing director in PwC's Salt Lake City office and has over 27 years of experience in public accounting. He has extensive experience serving both public and private companies at various points in their life cycle, from small private development-stage entities, to large, multinational corporations. Don coordinates PwC's services to the life sciences companies here in Utah. He holds BA and MAcc degrees from Utah State University and is a licensed CPA in Utah.

LORI MORENCY KUN

HEAD OF SOCIAL IMPACT,
QUALTRICS

Lori Kun is the Head of Social Impact at Qualtrics, a function built into the DNA of the organization and formalized through the founding of the 5 For The Fight™ Foundation. A proven fundraiser and communicator, Lori creates opportunities for Qualtrics and its partners to accelerate innovative cancer research. A graduate of Indiana University, Lori was named a 2018 Silicon Slopes Magazine Community Hero and included in Utah Business' 2013 Forty Under 40 list.

MARK LINDON
PRESIDENT, LINDON LAW
CORPORATION

Mark Lindon has over 30 years of corporate law and business transaction experience, has handled billions of dollars of transactions and supervised complex litigation involving M&A and trade secret disputes. Since 2006 Mark has been general counsel for Bioness INC., a medical device company founded by Alfred E. Mann, the late medical device billionaire entrepreneur and philanthropist. Mark also represented Mr. Mann in a wide variety of other matters unrelated to Bioness.

JERAMY LUND
MANAGING DIRECTOR,
SORENSEN IMPACT

Jeramy Lund is the Managing Director of Impact Investing at the Sorenson Impact Center at the University of Utah where he manages University Venture Funds I&II. He is also Principal Partner for Pentagon Holdings, an industrial real estate holding company and XIII, LLC; a diversified family holding company and a partner at Valter's Osteria. Currently Mr. Lund serves on the board of Command 7, Inc., is a member of the Kickstart Seed Fund and the Park City Angel Network.

BRIAN G. LLOYD
CHIEF LEGAL OFFICER AND
CORPORATE SECRETARY, MERIT
MEDICAL SYSTEMS

Brian G. Lloyd was appointed Chief Legal Officer and Corporate Secretary of Merit Medical Systems, Inc. in April 2016. Prior to joining Merit, Mr. Lloyd served as a member of the business transactions group at Parr Brown Gee & Loveless for more than 20 years. His experience includes advising public and private companies, as well as investors, on corporate governance, securities regulation, mergers, acquisitions, and financing transactions.

KEITH MARMER
EXECUTIVE DIRECTOR,
ASSOCIATE VICE PRESIDENT
FOR TECHNOLOGY & VENTURE
COMMERCIALIZATION, THE
UNIVERSITY OF UTAH

Keith is the Executive Director and Associate Vice President of TVC. His strong leadership skills come from 30 years of experience as an inventor, entrepreneur and investor. Overseeing operations for TVC, Keith's passion for innovation has helped countless ideas get the momentum they need to succeed. He has three patents, launched four companies, and helped entrepreneurs raise more than \$500 million in investment capital.

RACHELLE MORRIS

VICE PRESIDENT, J.P. MORGAN

As a Client Advisor at the J.P. Morgan Private Bank, Rachelle is responsible for advising individuals and families on building, preserving and managing their wealth. She works with clients in a variety of ways including creating investment portfolios and financial plans, as well as provide access to credit and banking solutions across the J.P. Morgan Private Bank platform.

JAY MUSE

PRESIDENT/CEO, TALON SURGICAL

Jay is an operating partner with Med Venture Holdings and is also president and CEO of Piper Access, LLC, a vascular access company. He has 27 years of experience in innovation, engineering, technology development, and commercialization. Jay is passionate about developing medical devices that are loved by both clinicians and patients.

ANDREW PAGELS

MANAGING PARTNER, INVESTABLE

Andrew Pagels is a bioengineer by training, and an entrepreneur and investor by practice. Pagels founded, advised, or invested in 100+ companies, and has weaved entrepreneurship, management, and engineering backgrounds together to bring a results-oriented approach to starting and growing companies.

Shawn T. Stigler — Boulder & Broomfield
Managing Partner • Co-Chair, Venture Best®

Michael R. Langer — Salt Lake City
Partner • Industry Group Chair, Life Sciences & Chemical

PolarityTE[®]

Where Self Regenerates Self[®]

PolarityTE is focused on changing patient care through developing novel therapies that empower the human body to regenerate its own tissue. Our platform technology uses natural biological processes to regrow fully functional tissue.

 Nasdaq: PTE  www.PolarityTE.com  800-560-3983

 123 North Wright Brothers Drive
Salt Lake City, UT 84116

At PolarityTE, our business is helping the human body heal itself.

Our first product, **SkinTE™**, is helping patients with burns and chronic and traumatic wounds regrow full-thickness, functional skin with all its layers and components. Our next product, **OsteoTE™**, is intended to repair, reconstruct, replace and supplement bones. At our research and development facilities in Utah, we are expanding our technology to regenerate other tissues, including cartilage, soft tissue, vascular, peripheral nerves and fat.

Our accomplishments are driven by a shared passion and desire to shift the health care paradigm away from costly treatments that can be as invasive and traumatic as the injury or disease being treated.

By harnessing the human body's capacity for self-healing and optimizing it with a patient's own tissue, we aim to bring truly regenerative therapies to the forefront of medicine.

REP. CHRIS STEWART

R-UT 2ND DISTRICT

Chris Stewart is the Congressman from Utah's Second Congressional District. He is a No. 1 New York Times best-selling and national award-winning author, world-record-setting Air Force pilot, and the former owner/CEO of a small business. Chris is one of 10 children and grew up on a dairy farm in Cache Valley. He graduated from Utah State University, where he earned his degree in economics.

HARALD STOCK

NON-EXECUTIVE DIRECTOR & FAMILY OFFICE INVESTOR

Entrepreneurial Life Science Non-Executive Director, serial Chief Executive Officer and Investor with unique broad, global track record. Leadership and board roles in large multi-national, mid-cap and early-stage, public and private (family-owned and VC-backed) companies; experience in Consumer Healthcare, Pharmaceuticals, Diagnostics, Medical Devices and Biotechnology; and builder and shaper of international commercial businesses.

SHAWN STIGLER

MANAGING PARTNER, MICHAEL BEST & FRIEDRICH LLP

With an entrepreneurial background, Shawn focuses his practice on advising startups, privately held businesses, business owners, investors, and investment funds, concentrating on business planning, forming, funding, and mergers and acquisitions. He provides clients with experienced counsel regarding purchase and sale agreements, independent contractor and employment issues, stock purchase and sales, non-competition issues, and investment decisions.

ERIC SUNG

DEALS DIRECTOR – CAPITAL MARKETS AND ACCOUNTING ADVISORY SERVICES, PwC

Eric is a Denver based Director in PwC's Deals practice focused on advising clients on the accounting and financial reporting complexities they face during transformational events such as mergers and acquisitions, capital raising (equity and debt offerings), spin-offs/divestitures, and accounting change such as the new revenue and leasing standards. Eric has over 11 years of experience working in capital markets and accounting advisory roles with multinational public companies as well as emerging, developing companies.

EDWARD SWANSON

COO/CO-FOUNDER, POLARITY TE

Dr. Edward Swanson is the COO and co-founder of PolarityTE, Inc. He earned an undergraduate degree in bioengineering from University of Pennsylvania and his medical degree from Harvard University. Prior to founding PolarityTE, he was a resident in plastic and reconstructive surgery at the Johns Hopkins University School of Medical where he focused on translational research in regenerative medicine and vascularized composite allotransplantation and patient outcomes within craniofacial surgery.

RYAN WATTS

CEO, DENALI THERAPEUTICS

Ryan Watts is the Chief Executive Officer of Denali Therapeutics. He is a co-founder, President and a member of the Board of Directors. Under Watts' leadership, Denali has advanced multiple therapeutic candidates into clinical testing for Parkinson's disease, Alzheimer's disease, and ALS. Denali has invented a proprietary blood-brain barrier platform for delivery of therapeutic proteins to the brain. Watts has also led efforts to raise significant capital to advance Denali's therapeutic pipeline.

A6 PHARMACEUTICALS

A6PHARMA.COM

A6 Pharmaceuticals is developing proprietary, small-molecules for treating infectious disease. Clinical trials of its lead compound, A6-5188, will be conducted in patients with acute respiratory distress syndrome (ARDS). The company submitted preliminary documentation to the FDA in November 2018 and is preparing to file its first Investigational New Drug application. A6 is led by a seasoned team of biotech professionals and distinguished scientists. Its technology has advanced to this point on the basis of over 6 years of research supported by approximately \$6 million of non-dilutive grants.

BRAVEHEART WIRELESS

BRAVEHEART.LIFE

BraveHeart Wireless, a MedDevice company focused on a unique BioMetric Wearable Platform that enables the rapid development of LifeSensors™ to enable the collection of relevant, clinical quality, actionable data. Our wearable biosensor patches enable continuous remote

monitoring of physiological patient data. We distribute product through our OEM partners who are enabling providers and payers to deliver higher quality healthcare at a more affordable price.

EXHALENT

EXHALENTDIAGNOSTICS.COM

For many of the world’s worst diseases, early detection is the key to saving lives and reducing costs for healthcare systems. Exhalent Diagnostics’ convenient and non-invasive disease screening platform can detect the breath-based biomarkers associated with a variety of diseases using only a few breaths in under ten minutes. Patents currently protect Exhalent’s sensor technology that has benefited from over \$4 million in funding from organizations including the U.S. National Institutes of Health and the National Science Foundation.

ILEOSCIENCE

ILEO SCIENCE

ILEOSCIENCE.COM

Ileo's revolutionary nOba technology enables oral formulations of peptides, proteins, and small molecules – a leap in drug development that Ileo is taking to the world through internal development and partnerships with the biggest pharma companies.

LIGHTLINE MEDICAL

LIGHTLINEMEDICAL.COM

Without relying on chemicals, drugs, or UV light, our patented visible light technology disinfects and protects catheters, thereby preventing hospital acquired infections arising from catheters, and averting the antibiotic resistant crisis. Our products are a simple solution to prevent all infections in the cost-sensitive, massive healthcare market. They will save hospitals, patients and insurers' money by avoiding no reimbursement and huge federal penalties. They will also save lives and reduce suffering.

MAJELCO MEDICAL

MAJELCOMEDICAL.COM

Majelco Medical Inc., a University of Utah spin-out, is a medical device company developing breakthrough methods to measure blood loss in real time during surgery. The company is led by Annette MacIntyre, M.D. FRCPC, a board-certified anesthesiologist with more than 30 years of clinical experience. She founded the company in 2014 to develop technology to improve the precision of surgical blood management patient care, and thereby significantly enhance patient outcome quality.

NVIEW MEDICAL

NVIEWMED.COM

At nView medical we are making surgeries safer, faster and consistently accurate. With insta3D, our proprietary AI imaging technology, we are able to assist surgeons in real-time, achieving greater accuracy than with conventional imaging while improving the surgical workflow. Surgical inaccuracies are a major source of hospital readmissions. Insta3D, our patent pending imaging technology, solves the accuracy problem by providing 3D visualization intra-operatively.

REDDYPORT

REDDYPORT

REDDYPORT.COM

The ReddyPort disposable oral access elbow provides simple, yet crucial, oral access through non-invasive positive pressure ventilation (NIV) masks while maintaining therapeutic pressure. The ReddyPort system includes the elbow and other products configured to work with the elbow, including an oral carekit, patient microphone, nebulizer, capnography adapter, and endoscopy adapter. The oral care kit allows clinicians to clean the patient's mouth thereby reducing the risk of ventilator-associated pneumonia.

TURNER™ IMAGING SYSTEMS

TURNER IMAGING SYSTEMS

TURNERINNOVATION.COM

Turner Imaging Systems' latest development project is a highly-portable, battery-powered, x-ray imaging device we call the Smart-C-arm. This portable device allows x-ray imaging and diagnosis at the point of care, whether in the hospital or clinic setting, or out in the open field. We are seeking \$6M in investor funding to begin commercialization of the Smart-C product.

WILLIAM BENZ

CEO, ACCELERUM ADVISORS

Throughout his career, Mr. Benz has served as Chief Financial Officer, and has led the financial and administrative functions of a variety of companies, both public and private, and ranging in size from start-up to multi-billion revenue companies. He has taken two companies public, and has been responsible for a number of follow-on equity offerings. Mr. Benz holds a Bachelor of Science in Electrical Engineering and Computer Sciences from UCLA and a Masters in Business Administration from California State University Long Beach.

DAVID BIEBER

DIRECTOR, FOUNDER & CEO,
PANDOLABS, AVID ALEXANDER

David Bieber is the Director of PandoLabs, Park City's entrepreneurial community; the Founder and CEO of Avid Alexander,

a rehab health business incubator; and the Coordinator of Business Projects and Mentors for the Park City Center for Advanced Professional Studies. David received a Bachelor of Science in Economics and a Bachelor of Arts in Psychology from Duke University and has served as a Duke University Alumni Admissions Advisory Committee Interviewer for over 10 years.

RICK LINDQUIST

ENTREPRENEUR-IN-RESIDENCE,
PANDOLABS

Rick is an entrepreneur and author with more than a decade of experience leading startups in highly-regulated environments. He's currently an Entrepreneur-in-Residence (EIR) at PandoLabs, and he previously served as CEO of PeopleKeep, a provider of benefits automation software to small businesses. Rick co-authored "The End of Employer-Provided Health Insurance", which was published by Wiley in 2014. Rick received a B.S. in Economics and a B.A. in Computer Science from Duke University.

BARRY SOBEL

MANAGING DIRECTOR AT
ALEX. BROWN, A DIVISION OF
RAYMOND JAMES

Barry Sobel and his Partner, Susan Thornton, have been working together since 1988. Including Jo Pontius and Martha Stevens clients have confidence knowing that we have more than 120 years of combined experience through all types of investment environments. Our clients are primarily entrepreneurs who have created substantial wealth and use our accumulated knowledge to plan for their and their families future. The majority of our portfolios are designed for a “work optional lifestyle”, focusing on building cash flow from multiple well diversified income streams.

WILLIAM WENNERTH

PRINCIPAL, JUPITER PEAK CAPITAL

William currently serves as a Principal at Jupiter Peak Capital focusing on opportunistic and special situations investments. Prior to Jupiter Peak Capital, William was an Associate and subsequently Vice President at Crestline Investors, Inc. where he was responsible for sourcing, due diligencing, negotiating, and executing transactions in traditional private equity, private debt, real assets, secondaries, and restructurings. Before Crestline, he was an investment banker in Citigroup’s middle-market M&A group where he focused on mergers, divestitures, acquisitions, leveraged buyouts, and recapitalizations.

JOSEPH URBAN

PARK CITY ANGELS

Dr. Urban is an interventional neuroradiologist and endovascular neurosurgeon turned angel investor with the Park City Angel Investor Network. Dr. Urban’s exceptional career in the physician, diagnostic and health care community offers early-stage ventures the deep and studied experience key to building a world-class business. His specialty is particularly relevant in the area of medical innovation, imaging and the life sciences.

KEVIN WILLIAMS

CEO, RGK INNOVATIONS

Prior to founding RGK, a product development and launch company focused on creating exceptional consumer experiences, Kevin held senior roles in several angel and venture funded startups in the Washington DC area. Kevin holds an MBA from the Thunderbird School of International Management and has a skill set ranging from digital marketing to global sourcing. In January 2018 Kevin represented the RGK brand “Brush Hero” on ABC’s Shark Tank.

TVC.UTAH.EDU

The Center for Technology & Venture Commercialization helps the University of Utah's faculty inventors bring their innovations to market.

The U was recently ranked as the 30th-most innovative university in the world by Reuters and as the No. 1 university in the country for technology transfer by the Milken Institute.

TVC is proud to help foster this spirit of discovery.

Baldomero (Toto) Olivera is a Distinguished Professor of Biological Sciences at the University of Utah. Olivera's research group focuses on marine cone snail venom, which contains over 100,000 pharmacologically active peptides. With broad implications for neuroscience, these peptides could provide radically different approaches for non-opioid pain treatment.
