DRIVEN TO DISCOVER

At University of Utah Health, our world-class researchers work together to tackle some of the toughest problems in health and medicine. With scientists down the hall from health care providers, and across campus from leading-edge scholars, we're uniquely positioned to turn big ideas into real solutions. From gene therapies to health apps to AI-driven diagnostics, we're taking discoveries from bench to bedside and advancing care in clinics and communities to improve lives in Utah and beyond.

WELCOME

WELCOME TO THE 2023 ENTREPRENEUR & INVESTOR LIFE SCIENCES SUMMIT

On behalf of BioUtah, BioHive and the University of Utah's PIVOT Center, we welcome you to the 8th annual Entrepreneur & Investor Life Sciences Summit (Summit). We host this Summit for many reasons including; introducing investors to the life sciences industry in Utah, showcasing exciting investable technologies being developed here, connecting companies and investors, providing content to assist early-stage companies and networking between various segments of our life sciences community – one of the fastest growing in the country.

This year we are placing a particular emphasis on companies seeking funding. We not only have six excellent companies chosen for the pitch competition, but we have over 20 other companies who have a presence in our virtual Pitch Hall accessible through the Whova app. The fact we only chose six companies to present in the pitch competition does not mean there are only six companies worth considering. We encourage you to explore all the companies seeking funding that have provided information through our virtual platform.

Networking is always highlighted as the main reason attendees come to this event. We encourage you to make use of the Whova app where all attendees are listed. You can communicate with other attendees and even invite them to meet with you. You will notice that we have many "networking areas" shown on the map of the facility including some high boy tables with numbers on them in the front room of the main floor by the registration desk. Invite another attendee to meet you at a specific table number.

We are grateful for the generous support of our sponsors and exhibitors who make the Summit possible, particularly Wilson Sonsini, our title sponsor. We also thank the many investors who have taken the time to be here today and learn more about the state's burgeoning innovation hub. We value your participation as we continue to brand, build and unite Utah's life sciences community. Together, we are paving the way for an even brighter future. Enjoy the day!

If you need help, call the UIT help Desk at 801.581.4000 option 1 or visit it.utah.edu.

SUMMIT COMPANION APP: WHOVA

The E&I Summit uses the Whova platform to enrich your experience at the Summit while delivering all sessions virtually. Whova will also allow you learn about speakers and sponsors, engage with exhibitors, view poster presentations from participating companies, schedule meet ups with attendees, and more. Whova can be accessed via both an online app and a mobile app.

Online App

The online version of Whova can be accessed at eilifsciencessummit.org by clicking the "Whova Access" link. Login using the email address with which you registered for the Summit.

Mobile App

Search "Whova" in the App Store on your iPhone or in Google Play on your Android phone. Open the app and search for "entrepreneur and investor." Once you have found the E&I Summit, sign in using the same email you used to register for the Summit. If you do not have a password, please create one by entering it in the appropriate field.

Post-Event Content Access

Content can be accessed for up to three months after the Summit using the online app or the mobile app.

SCHWEGMAN IS A PROUD SPONSOR OF BIOUTAH E&I SUMMIT SKI DAY

Schwegman is a vibrant and innovative law firm dedicated exclusively to the practice of intellectual property law. Our 110+ intellectual property attorneys and agents serve a roster of clients that includes startups, universities, multinational corporations, middle-market businesses, and individuals in matters spanning the entire technical spectrum including those relating to digital healthcare, biotechnology, pharmaceuticals, and medical technology.

SCHWEGMAN
LUNDBERG • WOESSNER

MINNEAPOLIS | SAN JOSE

SUMMIT PARTICIPANTS

CRISTIAN ATRIA
CEO, nVIEW MEDICAL

Cristian is a healthcare entrepreneur with 25 years of experience in product development and commercialization. He founded nView Medical after a successful career with GE Healthcare where he developed and launched three major imaging systems and was General Manager for the surgical navigation business. He had commercial and R&D roles at Fiagon (Germany) and HealthTronics (Austin, TX). He holds two Masters of Science degrees in Engineering from renowned universities in Europe, an MBA from Boston University and an Entrepreneurship certificate from MIT. Cristian spends his free time with his family or in the outdoors climbing, mountain biking, or skiing.

JENNY BARBA
CO-FOUNDER, MANAGING PARTNER, FEATURES CAPITAL

Jenny Barba, Co-Founder and Managing Partner of Features Capital, is a venture investor with over twenty-four years of experience financing the growth of medical device and healthcare technology innovation. Jenny has executed over \$4 billion in capital transactions across thirty lead-managed public and private equity offerings, M&A, and alternative investments. Jenny specializes in deal sourcing, portfolio construction, harvesting growth and building management teams in medical technology companies across all stages of development and a broad spectrum of diseases.

BRIAN BABCOCK
MANAGING DIRECTOR - DEALS VALUATION, PWC

Brian is a managing director in PwC's Deals practice in Rockies and has over 17 years of experience specializing in the valuation of business enterprises, equity instruments, and intangible assets for financial reporting, tax and strategic purposes, including assessing deal value in connection with strategic acquisition, divestitures and joint ventures.

KAREY BARKER
FOUNDING MANAGING DIRECTOR, CROSS CREEK ADVISORS

Karey is a generalist with broad public and private investment experience. She is interested in great business models across sectors and has led investments in a variety of industries, including digital marketplaces and consumer internet, health-care technology and services, marketing software and services, and other enterprise software and services. New areas of interest include manufacturing and supply chain innovation and sustainable product innovation.

ADRIAN BEAMISH

PARTNER, PWC

Adrian is a Deals Partner in PwC’s Health Industries Practice with over 30 years of experience advising life sciences and technology companies ranging from emerging companies to publicly owned large multinationals. He is experienced in advising clients on issues relating to capital market and M&A transactions, IPO readiness, complex accounting and reporting matters, financial statements, finance processes and controls.

DAVID BEARSS

CHAIRMAN AND CEO, HALIA THERAPEUTICS

Dr. Bearss is a passionate and experienced entrepreneur with a successful track record of drug development that spans the last 25 years in both academic and pharmaceutical industry settings. He has discovered 16 compounds that have moved forward in clinical development and started many biotechnology companies, including Tolero Pharmaceuticals in Lehi, Utah which sold for nearly \$1 billion, a state life sciences record. In addition to his current leadership at Halia Therapeutics, Dr. Bearss serves on the board of Biolexis Therapeutics, Canary Speech and Galvan Health and helped start the U2TAH Therapeutics Accelerator at the University of Utah.

**MASCHOFF BRENNAN
IS PROUD TO SUPPORT

LIFE SCIENCE SUMMIT**

PROTECTING YOUR IDEAS AND YOUR BUSINESS.

Maschoff Brennan is a leading Intellectual Property & Litigation law firm with more than 35 attorneys. Our team offers a range of technical and legal expertise in a variety of fields, and is committed to protecting and promoting the intellectual property interests of our clients throughout Utah.

PARK CITY | SALT LAKE CITY | IRVINE | LOS ANGELES

JACK BOREN
MANAGING PARTNER, EPIC VENTURES

Jack is a career venture capitalist with a passion for identifying and backing visionary entrepreneurs. Over the past decade, Jack has worked with a variety of disruptive healthcare and biotech companies including Recursion Pharmaceuticals (NASDAQ: RXXR), Collective Medical Technologies (ACQ: PointClickCare), Conversa Health (ACQ: American Well Corp), Marketware (ACQ: Medsphere Systems), Unlearn.ai, Healthjoy, Teiko Bio and more. Jack is involved in various industry organizations and advocacy groups including the Rocky Mountain Venture Capital Association. Prior to EPIC, Jack worked for Cisco Systems in the Corporate Development Finance Group. He holds a BS in finance from the University of Utah. Jack is an avid cyclist and can be found most mornings riding in one of the canyons along the Wasatch Front.

MATT BRESNAHAN
PARTNER, WILSON SONSINI

Matt Bresnahan is a partner in the San Diego and Los Angeles offices of Wilson Sonsini Goodrich & Rosati, where he has focused his practice for the past fifteen years on establishing and building biotech companies. Matt also spends a significant amount of time in the firm's new Salt Lake City office. Matt's training is in all aspects of intellectual property, including strategic patent counseling, patent prosecution, licensing, and litigation. Matt is primary outside IP counsel to more than 50 life sciences companies within the biotechnology, therapeutic, genomics, and medical device fields in Southern California. Matt leads a team of more than 30 patent attorneys and patent agents at the firm.

RACHEL BUTLER
PRESIDENT, CATALYTIC IMPACT FOUNDATION

As President of the Catalytic Impact Foundation, Rachel Butler has extensive experience and expertise analyzing, evaluating, and investing in early- and mid-stage companies in the life sciences and healthcare industry. Since 2016, she has reviewed hundreds of such companies and served as a team leader, overseeing and managing the research, analysis, and investment processes, to select companies for presentation and/or investment, beginning at Cavendish Global and then at Catalytic Impact Foundation. She is a lead member of the investment team that invested in the CIF portfolio of innovative healthcare companies. Previously, she served as co-founder and Editor-in-Chief of Asthma Magazine, a patient education publication for asthma and allergy.

JAMES BUXTON
PRINCIPAL, NEA

James joined NEA in 2021 and is currently a Principal on the healthcare team, where he focuses on investment in the life sciences space. Prior to NEA James worked at SR One Capital Management where he focused on early stage biopharma opportunities. Prior to SR One he worked at Morgan Stanley and New Rhein Healthcare Investors. He began his career as a practicing physician and then as a surgeon focused on Cardiothoracic surgery, having joined the Royal College of Surgeons with his MRCS. During medical school he spent time researching endothelin signaling in colorectal cancer, driving to Mongolia for charity and lived in Samoa working at the national hospital.

ENGAGECONTRACTING.COM

JEREMY BUZZARD

CO-FOUNDER AND PARTNER, INDUCTION BIO

Jeremy did his PhD and post-doctoral training in cellular and molecular biology at Monash and Harvard respectively. He subsequently spent 12 years at McKinsey, where he co-led the firm's global healthcare strategy and transactions practice. After McKinsey, he has worked in senior leadership of a number of startups, and also led strategy and M&A for Danaher's diagnostics platform. Jeremy is now building a portfolio of businesses in Utah as a partner in Induction Bio.

LINDA CABRALES

DIRECTOR, UTAH INNOVATION CENTER

Linda Cabrales is the Innovation Center Director at the Utah Governor's Office of Economic Opportunity. She works with entrepreneurs and researchers to develop and advance innovative technologies and supports businesses throughout the state to access non-dilutive funding through the federal Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs. Linda has worked in communications and marketing, management consulting, investment banking, and co-founded a successful small business.

BILL CROSSMAN

CEO, PHOENIX PHARMALABS

Mr. Crossman is responsible for the overall management of the Company and the creation, planning and execution of business and financial strategies and corporate development activities, including capital generation. Mr. Crossman is a senior management professional with international and domestic experience as CEO, COO and CFO of enterprises ranging from entrepreneurial start-ups to Fortune 500 level companies. He has a proven track record of successfully commercializing various emerging technologies including manufacturing and industrial systems, computer software, marine bioremediation, nanotechnology and life sciences. Mr. Crossman has assisted numerous early-stage companies to refine business strategies, commercialize new products, raise capital, license technologies, scale revenues and production, and expand into global markets.

McCarter & English

A History of Innovation

With advanced degrees and hands-on experience in the fields driving the life sciences industry, McCarter lawyers deliver innovative solutions for enterprises at every stage of development.

www.mccarter.com

KELVYN CULLIMORE
PRESIDENT & CEO, BIOUTAH

Kelvyn has three decades experience as a medtech CEO, over a decade on the board of the Medical Device Manufacturers Association and over a decade as mayor of a suburb of Salt Lake City. He brings a unique understanding of industry and policy issues to advance Association objectives and help member companies. He has been CEO of BioUtah since October 2018.

MARSHALL DAHNEKE
OPERATING PARTNER, GRIDIRON CAPITAL

Marshall Dahneke is an Operating Partner with Gridiron Capital LLC based in New Canaan, CT and serves as a Director on Boards with five companies. Previously, Marshall served as Chief Executive Officer and Chief Commercial Officer of Performance Health (Akron, OH) from June 2008 until April 2018. Prior to joining Performance Health, Mr. Dahneke was Vice President and GM of the Infection Prevention Technology business at STERIS Corporation as well as the Vice President, New Venture Development at Hillenbrand industries. His career also includes over a decade at Hill-Rom. He started his career as a Consultant with Bain & Company, Inc. in their Boston, MA office.

MONICA DiCENSO
HEAD OF GLOBAL INVESTMENT OPPORTUNITIES GROUP,
JPMORGAN PRIVATE BANK

Monica DiCenso is a Managing Director and Head of the Global Investment Opportunities Group (GIO) at J.P. Morgan Private Bank based in New York City. GIO provides investment advice to the firm’s most sophisticated clients and family offices around the world by facilitating institutional level implementation across asset classes. Prior to joining GIO in 2015, Monica was the Head of U.S. Equity Strategy at J.P. Morgan Global Wealth Management where she managed a team of strategists and served as a key resource for clients by identifying equity ideas including thematic brokerage and options trades as well as identifying single stock selections for our recommended trading lists. Monica joined the Private Bank in 2012 from J.P. Morgan’s Investment Bank.

LIFE SCIENCES IN SLC

We are leading together. Salt Lake City is building a world-class Healthcare Innovation Center — intentional space for more incubator, office, and wet lab locations where startups can grow and scale with ease.

For more information, reach out to Technology and Innovation Advisor Clark Cahoon at clark.cahoon@slcgov.com or visit our website.

SLC.GOV/ED

LISA DUNLEA
FORMER LIFE SCIENCES EXEC & VENTURE CAPITALIST

Lisa has over 25 years of experience in life sciences as a venture capitalist and entrepreneur, focusing on digital health, therapeutics, diagnostics, and devices. In her current role with the University of Utah’s PIVOT Center as a part-time senior executive, she helps the organization with presenting and financing promising spinout life science technologies.

AIMEE EDWARDS
EXECUTIVE DIRECTOR, BIOHIVE

Aimee Edwards is the Executive Director of BioHive leading the organization’s mission to brand, build and bring together the life science and healthcare innovation ecosystem. She has a broad range of leadership experience building community, branding and policy. Prior to joining BioHive, she served as the External Affairs Director at Western Governors University. In this role, she launched the university’s first community affairs department which was vital in securing national partnerships, expanding social impact and advancing education and workforce development programs. She previously held multiple positions of increasing responsibility at the Utah Governor’s Office and Utah Governor’s Office of Economic Opportunity including leading strategic outreach, communications and marketing, and legislative strategy.

MAYER|BROWN

IVY ESTABROOKE

SENIOR INNOVATION POLICY STRATEGIST, RTI INTERNATIONAL

Ivy Estabrooke has focused on accelerating the development and adoption of emerging technologies across public and private sectors. She currently is a Senior Innovation Policy Strategist at RTI International where she works to strengthen regional and biomedical innovation programs. Prior to joining RTI, she held leadership positions at two biotech start-ups, led Utah’s technology based economic development and as a program officer for the Office of Naval Research. She serves as an independent director of a public critical materials company. She holds a doctorate in neuroscience from Georgetown University, a masters in national resource strategy from the Eisenhower School of National Security Strategy and Resource Management, and a bachelors in biology from Smith College.

ROB ETHERINGTON

CEO, CLENE

Rob Etherington is the founding CEO of Clene (NASDAQ: CLNN), a clinical-stage biopharmaceutical company pursuing drug therapies for Multiple Sclerosis and Amyotrophic Lateral Sclerosis. As CEO of Clene, Rob raised ~\$115M privately and ~\$18M in grants/direct support to fund Clene’s drug development efforts prior to taking CLNN public on the NASDAQ in late 2020. Rob started at Pfizer, where he was a Team Leader for the drug Lipitor. He joined Actelion Pharmaceutical in 2000 to be the founding commercial leader; Actelion became the largest EU biopharm until Johnson & Johnson purchased Actelion. Rob is a past Board member of BioUtah.

BRIAN FAHEY

LEGISLATIVE DIRECTOR, US HOUSE OF REPRESENTATIVES

Brian serves as Legislative Director and health care policy adviser to U.S. Congressman Brett Guthrie, who chairs the Energy & Commerce Committee Health Subcommittee. Before joining Representative Guthrie’s office, Brian worked as a Senior Legislative Assistant for Congressman John Curtis (UT-03), staffing the Congressman specifically on health care policy and technology policy. Brian is a native Delawarean and graduated from the University of Delaware in 2014 with a degree in Political Science.

Governor’s Office of Economic Opportunity
UTAH INNOVATION CENTER

Supports Utah’s Life Sciences Industry By:

- **Providing assistance to access non-dilutive funding for R&D projects.**
- **Offering microgrants and non-recourse loans for technology development.**
- **Presenting training and workshops to support small businesses.**

MARK LEHMKUHLE

CEO, EPITEL

Mark Lehmkuhle is CEO of Epitel. Epitel is revolutionizing how brain health is monitored. We are dedicated to improving seizure monitoring and detection. Our first commercial product, the REMI Remote EEG Monitoring System, is FDA cleared for near real-time and/or remote EEG monitoring. By leveraging our proprietary cloud-based wearable sensor system, we are enabling informed treatment decisions by making EEGs readily deployable and accessible at point-of-care.

DAN LEMAITRE

CEO, BLUEWIND MEDICAL

Dan Lemaitre joined BlueWind Medical as Executive Chairman in September 2018 and serves as CEO since January 2020. Dan also serves on the board of Globus Medical (NYSE: GMED) one of the fastest growing spinal companies with revenue of ~\$700 million per annum. Previously, Dan was the CEO of CoreValve that launched the first commercial transcatheter aortic valve in Europe in 2007. Prior to joining CoreValve, Dan was a Senior Vice President at Medtronic where he headed-up strategic planning and corporate development. Earlier in his career Dan spent 28 years in the medical device field as an investment analyst.

Morgan Stanley

PRIVATE WEALTH MANAGEMENT

The 9990 Group

Based in Salt Lake City, we are an experienced, multidisciplinary team who serves a clientele of accomplished entrepreneurs, their families and their business enterprises. Combining our own talents with the global resources of Morgan Stanley, we deliver comprehensive wealth management solutions to help our clients grow their wealth, establish the basis for an enduring legacy and pursue their vision of a meaningful life.

Working daily with successful business owners and executives, we are intimately familiar with the personal and professional challenges of growing and monetizing a successful venture. This experience enables us to serve as close family advisors who help our clients make well-informed and timely decisions.

We look forward to hearing from you.

MARC LINDSAY

PERFORMEXW.COM

We have a therapeutic smart bandage wound care solution with integrated biosensors to continuously monitor and heal wounds. Our applications are civilian, military and veterinary, from general lacerations to diabetic ulcers, burn wounds and bacterial and fungal infections sustained by the military.

PIONEER BIOLABS

JOSHUA YATES

PIONEERBIOLABS.COM

Pioneer Biolabs is an early-stage biotech focused on strain optimization for recombinant protein production. To accomplish this, the company leverages high-throughput CRISPR techniques with fluorescent display systems. Pioneer targets fermentation-enabled companies in multiple protein industries.

PIXEL THERAPEUTICS INC.

BRUCE CUMMINGS

Pixel is a mental health SaaS company to improve care for veterans and teens through clinical AI and real-time monitoring. Pixel has 30 patents on behavioral analytics.

PRECISION DROPPER

JOEL DUSTIN

PRECISIONDROPPER.COM

At Precision Dropper we aim to promote eye health by removing barriers to taking eye medication. Did you know 60-80% of eye drop medication is wasted? This is because eye drops are 3-5 times too big for your eye and they are difficult to put in. After 37 revisions and 2 1/2 years of prototyping, we give you Precision Dropper. Precision Dropper is a universal eye dropper adaptor that reduces the size of eye drops while also increasing the ease of use.

QUANSYS BIOSCIENCES, INC.

ADAM BROWN

QUANSYSBIO.COM

Quansys Biosciences specializes in customizable protein quantification by offering multiplex assays, imaging equipment, and user-friendly software analysis. Quansys maximizes data quality and quantity to accelerate the discovery, diagnosis, and treatment of disease.

REBEL MEDICINE

BRETT DAVIS

REBELMEDICINE.COM

Rebel Medicine is a pre-clinical specialty pharmaceutical company developing non-opioid solutions for acute pain management. Our flagship product is an injectable long-acting local anesthetic that can provide 72 hours of non-opioid postoperative pain management. It can be used in nearly any surgical procedure, either locally at the surgical site or injected as a nerve block agent. We're currently performing IND-enabling studies and preparing for our clinical program. We've raised a total of \$3M seed round and have received \$1.8M in non-dilutive grant funding from the NSF, NIH, and the State of Utah. We are currently seeking partners and investors for our clinical program beginning in 2024. Contact us for our pitch deck!

RHEUMAGEN

RICHARD FREED

RHEUMAGEN.COM

RheumaGen is an HLA gene editing company developing the cure for rheumatoid arthritis (RA) & other major autoimmune diseases. We have completed preclinical studies in RA and are preparing for IND submission in 2024.

SNOW CANYON THERAPEUTICS, INC.

DAVID BLACKWELL

SNOWCANYONTHERAPEUTICS.COM

Snow Canyon Therapeutics is developing novel drugs for the treatment of chronic inflammatory diseases. By regulating redox, Snow Canyon has been able to stop all local chronic inflammation in a joint with osteoarthritis. This novel approach stops the progression of OA, restores a joint back to homeostasis and increases the thickness and density of cartilage. This technology will stop the need for joint replacements.

STINGRAY THERAPEUTICS

ALEXIS WESTON

STINGRAYTX.COM

Stingray is developing potent and selective small molecule inhibitors of ENPP1. ENPP1 is the direct negative regulator of the STING pathway which is essential for innate immune response. We have generated promising preliminary data and expect to file our IND in March 2023.

XENOCOR INC.

TONY WATSON

XENOCOR.COM

Xenocor is addressing the costs, risks, hassles and waste associated with traditional laparoscopic visualization that has gone largely unchanged since the 1980s. We are doing this through a single use platform that eliminates capital costs, certain risks, hassles, and actually reduces waste.

XENTHERA, INC.

LYNNE KELLEY

XENTHERA.COM

Xenthera, headquartered in Salt Lake City, Utah, is a private clinical stage biopharmaceutical company founded in 2022, focused on oncology, discovering, and developing novel therapeutics for solid tumor oncology targets to improve the lives of patients fighting cancer. The leadership team has a strong record of developing drugs and devices from discovery through commercialization including multiple successful exits as well as extensive trial design and execution experience.

DISCGENICS

ROBERT WYNALEK
DISCGENICS.COM

DiscGenics is a privately held, clinical stage biopharmaceutical company focused on developing regenerative cell-based therapies that alleviate pain and restore function in patients with degenerative diseases of the spine. We have recently received RMAT designation from the US FDA.

PIPER ACCESS

JAY MUSE
PIPERACCESS.COM

Piper Access is a medical device company committed to providing superior vascular access products that are loved by both clinicians and patients alike. They are advocates of health and life, providing novel technologies to advance the frontier of medical innovation.

EPITEL

MARK LEHMKUHLE
EPITEL.COM

Epitel is revolutionizing how brain health is monitored. We are dedicated to improving seizure monitoring and detection. Our first commercial product, the REMI Remote EEG Monitoring System, is FDA cleared for near real-time and/or remote EEG monitoring. By leveraging our proprietary cloud-based wearable sensor system, we are enabling informed treatment decisions by making EEGs readily deployable and accessible at point-of-care.

RENALYTIX

JAMES McCULLOUGH
RENALYTIX.COM

Renalytix (NASDAQ: RNLX)(LSE: RENX) is an in-vitro diagnostics and laboratory services company that is the global founder and leader in the new field of bioprognosis™ for kidney health. The leadership team, with a combined 200+ years of healthcare and in-vitro diagnostic experience, has designed its KidneyIntelX laboratory-developed test to enable risk assessment for rapid progressive decline in kidney function in adult patients with T2D with early CKD stages 1-3. We believe that by understanding how disease will progress, patients and providers can take action early to improve outcomes and reduce overall health system costs.

OWLET

KURT WORKMAN
OWLETCARE.COM

Owlet makes wearable health devices for babies to help parents monitor what matters most. Over 2 million parents have trusted Owlet to help them better care for their baby and the company went public on the NYSE in 2021(OWLT).
