

## **Nelson Labs Celebrates 40 Years of Excellence in Science and Service**

SALT LAKE CITY, UT, April 17, 2025 – Nelson Labs, a global leader in microbiological and analytical chemistry testing and advisory services for the medical device and pharmaceutical industries, proudly recognizes its 40th anniversary. Founded in 1985 as a modest laboratory in the University of Utah's Research Park, Nelson Labs has since grown into an expansive network of 12 locations across North America, Asia, and Europe.

Over the past four decades, Nelson Labs has continuously broadened its service offerings and global presence to meet the evolving needs of its customers while maintaining an unwavering commitment to quality and scientific expertise. Key milestones in Nelson Labs' history include the 2017 addition of a state-of-the-art Extractables and Leachables laboratory in Belgium, which now serves as its European headquarters, and the 2021 acquisition of a US-based regulatory compliance advisory business. During this time, Nelson Labs has also expanded its pharmaceutical services, making strategic investments to enhance support for drug product manufacturers.

*"In celebrating 40 Years of Science and Service, we reflect on our impact and the individuals who have contributed to this tremendous milestone,"* stated Joe Shrawder, President of Nelson Labs. *"Our continued success is the product of our exceptional scientists, loyal customers, and our teams' dedication to our shared mission of Safeguarding Global Health."*

Looking ahead, Nelson Labs remains focused on scientific innovation, ongoing investments in its employees, and further enhancements of its infrastructure. As a trusted partner to top medical device and pharmaceutical manufacturers, Nelson Labs is committed to delivering excellence in laboratory testing and consulting solutions to help safely and effectively bring life-saving products to market around the world.
