## TABLE OF CONTENTS

### New Opportunities

Agriculture.....	2
Artificial Intelligence & Machine Learning .....	3
Autism.....	3
Biomedical Research.....	3
Cancer .....	4
Cardiovascular and Pulmonary Health.....	6
Chronic Pain & Pain Management .....	6
Cognitive and Brain Health.....	6
Combat Casualty Care.....	7
Communication Disorders .....	8
Diagnostics .....	8
Down Syndrome .....	8
Endocrine & Metabolic Disease .....	9
Epilepsy.....	9
General Medical Sciences .....	10
Genomics .....	10
Health IT & Data .....	10
HIV/AIDS .....	11
Immunology & Infectious Disease .....	12
Medical Countermeasures.....	13
Mental Health.....	13

## GBG Report

*Updated Monthly*

June 5, 2026

<https://www.g2gconsulting.com/gbg-reporting-service/>

Military Burn.....	13
Oral Health .....	14
Precision Medicine .....	14
Reconstructive Transplant .....	14
Reproductive Health.....	14
Small Business Development .....	15
Substance Use Disorder .....	16
Therapeutics.....	16
Toxic Exposures .....	17
Vision Research .....	17

### Recurring Opportunities

Advanced Research Projects Agency for Health.....	18
Air Force .....	19
Army.....	20
BARDA .....	22
DARPA .....	22
Defense Threat Reduction Agency .....	22
Department of Energy.....	23
National Science Foundation .....	23

Patient-Centered Outcomes Research Institute .....	25

<b>GBG Acronyms .....</b>	<b>28</b>
---------------------------	-----------

**June 18, 2026** – Join us for G2G’s Monthly [Non-Dilutive Funding: GBG Reporting Service Webinar](#) at 12-12:30pm EST (FREE to all) and 12:30-1:00pm (premium service private consultation for G2G and GBG clients). If you’re an affiliate of Biocom, BioUtah, Bio Nebraska, Focused Ultrasound Foundation, iBIO, Indiana Life Sciences Association, Georgia Life Sciences, IowaBio, MichBio, NCBiotech, Ohio Life Sciences, South Dakota Biotech, VaBio, or BioWV – your membership gets you access to the [private consultation meeting](#).

**Major Grant Policy Changes** – The Office of Management & Budget (OMB) announced a [proposed rule](#) that if implemented, will significantly alter how all federal grants are disbursed and managed, starting from October 1. The public comment period is open until July 13.

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>AGRICULTURE (2)</b>		
1.	Special Research Grants Program Aquaculture Research (USDA/NIFA)  USDA-NIFA-SRGP-011856	The Aquaculture Research program will fund projects that directly address major constraints to the U.S. aquaculture industry and focus on one or more of the following program priorities: (1) genetics and genomics of commercial aquaculture species; (2) critical pest and disease issues impacting commercial aquaculture species; (3) maximizing farmer profit through novel technologies, improved production systems, and/or more effective management strategies for commercial aquaculture species; and (4) economic research for increasing aquaculture profitability.  <a href="https://www.nifa.usda.gov/grants/funding-opportunities/special-research-grants-program-aquaculture-research">https://www.nifa.usda.gov/grants/funding-opportunities/special-research-grants-program-aquaculture-research</a>	Up to \$300,000	Proposal: 6/15/26
2.	International Consortium for Antimicrobial Stewardship in Agriculture (ICASA) 2026 RFA (ICASA)	This RFA solicits research that advances antimicrobial stewardship in animal agriculture. The requested research will provide U.S. swine and beef producers with practical solutions, such as new technologies and management practices, that promote judicious antibiotic use and improve animal health and welfare.  <a href="https://foundationfar.org/grants-funding/opportunities/international-consortium-for-antimicrobial-stewardship-in-agriculture-icasa-2026-rfa/">https://foundationfar.org/grants-funding/opportunities/international-consortium-for-antimicrobial-stewardship-in-agriculture-icasa-2026-rfa/</a>	Up to \$500,000, for up to 3 years	Pre-Application: 6/10/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>ARTIFICIAL INTELLIGENCE &amp; MACHINE LEARNING (3)</b>		
3.	Novel Experiential Technologies Assisting Individual Learning (NExT AI) Hubs (P2o Clinical Trial Optional) (NIH/NICHHD)  RFA-HD-27-006	This NOFO supports research examining how children with SLDs, or those at risk for developing SLDs, are exposed to and interact with existing and emerging AI technologies. The goal is to understand how these technologies function as part of the broader learning environment and how they may influence academic, cognitive, and socio-emotional development. <a href="https://www.grants.gov/search-results-detail/359949">https://www.grants.gov/search-results-detail/359949</a>	Up to \$390,000 per year, for up to 4 years	Proposal: 10/2/26
4.	AI Efficiency Challenge (STRIDE)	STRIDE aims to dramatically improve the efficiency of at-scale AI/ML systems and data centers in order to improve the effective capacity and competitiveness of the U.S.-based companies. The primary mechanism for attaining this goal through this Challenge will be the accelerated commercial adoption of translation-ready solutions. <a href="https://stride-ventures.com/ai-efficiency-challenge/">https://stride-ventures.com/ai-efficiency-challenge/</a>	Up to \$3.5 million, for up to 2 years Dependent upon award mechanism	Proposal: 7/13/26
5.	Draft SOO: Foundational AI Engine for a Generative, Enterprise-Wide Predictive Biodefense Capability (MCDC)	The Joint Science and Technology Office (JSTO) within the Defense Threat Reduction Agency (DTRA) is seeking a predictive AI engine that forecasts threats before they emerge, autonomously designs highly manufacturable therapeutics, and delivers validated countermeasures in under 90 days, ensuring warfighter lethality and survivability regardless of the operational theater. <a href="https://www.medcbrn.org/business-opportunities/">https://www.medcbrn.org/business-opportunities/</a>	TBD	Response: 6/9/26
		<b>AUTISM (3)</b>		
6.	FY26 Autism Research Program (ARP) (DoD/CDMRP)  HT942526ARPCDA HT942526ARPCTA HT942526ARPIDA	The ARP supports research of exceptional scientific merit and innovation with high impact that focuses on autism. Three awards are posted: Career Development Award; Clinical Trial Research Award; and Idea Development Award. <a href="https://cdmrp.health.mil/funding/arp">https://cdmrp.health.mil/funding/arp</a>	Up to \$1.75 million, for up to 4 years Dependent upon award mechanism	Pre-Application: 7/27/26 Proposal: 10/22/26
		<b>BIOMEDICAL RESEARCH (1)</b>		
7.	Forecast: National Biomedical Research Centers (P5o Clinical Trial Optional) (NIH/ORIP)  PAR-28-017	This NOFO emphasizes development of innovative human-based models and new technologies to reduce reliance on live research models. Applications must describe clear, actionable plans to reduce, refine, and replace whole-animal use by developing complementary and alternative approaches tailored to relevant use cases in biomedical research. Scientifically, the NBRCs function as centers of innovation in fundamental science as well as translational hubs that develop, refine, and test novel interventions for ultimate use in human patients. <a href="https://www.grants.gov/search-results-detail/362353">https://www.grants.gov/search-results-detail/362353</a>	Up to \$11.4 million	Estimated post date: 11/25/26 Estimated proposal date: 1/25/27

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>CANCER (20)</b>		
8.	FY26 Melanoma Research Program (MRP) (DoD/CDMRP)  <a href="#">HT942526MRPFARM</a> <a href="#">HT942526MRPIA</a> <a href="#">HT942526MRPMASA</a> <a href="#">HT942526MRPSRA</a> <a href="#">HT942526MRPTSA</a>	The MRP supports innovative, high-impact melanoma research with clinical relevance that will make advancements in Prevention and Interception Research, Rare Melanoma Research, and Survivorship Research. Five awards are posted: Idea Award; Melanoma Academy Scholar Award; Team Science Award; Survivorship Research Award; and Focused Program Award – Rare Melanomas. All applications must address one of the focus areas. <a href="https://cdmrp.health.mil/funding/mrp">https://cdmrp.health.mil/funding/mrp</a>	Up to \$2.8 million, for up to 4 years Dependent upon award mechanism	Pre-Application: 7/13/26 Proposal: 10/14/26 (FPA/IA/TSA) Pre-Application: 9/22/26 Proposal: 10/14/26 (MASA/SRA)
9.	FY26 Prostate Cancer Research Program (DoD/CDMRP)  <a href="#">HT942526PCRPSA</a> <a href="#">HT942526PCRPEIRA</a> <a href="#">HT942526PCRPIDA</a> <a href="#">HT942526PCRPPRA</a>	The PCRP supports innovative, high-impact research with clinical relevance that will eliminate death and suffering from prostate cancer. Four awards are posted: Data Science Award, Early Investigator Research Award, Idea Development Award, and Idea Development Award. Applications must address one or more of the following overarching challenges: Improve overall health, wellness and survivorship; Develop new treatments or improve existing therapies to improve outcomes; Enhance clinical care; and Define the biology of prostate cancer progression to lethal prostate cancer to reduce death. <a href="https://cdmrp.health.mil/funding/pcrp">https://cdmrp.health.mil/funding/pcrp</a>	Up to \$2.1 million, for up to 4 years Dependent upon award mechanism	Pre-Application: 8/12/26 Proposal: 9/2/26
10.	Early-Stage Innovative Technology Development and Advanced Development and Validation of Emerging Technologies for Basic and Clinical Cancer Research (R33 Clinical Trial Not Allowed) (NIH/NCI)  RFA-CA-27-001 (R61) RFA-CA-27-002 (R33)	These NOFOs solicit applications proposing to develop innovative technologies proposing exploratory research projects and offering new capabilities for the molecular or cellular characterization of cancer or for improved handling and quality control of biospecimens for basic, clinical, or epidemiological cancer research. <a href="https://www.grants.gov/search-results-detail/360536">https://www.grants.gov/search-results-detail/360536</a> (R61) <a href="https://www.grants.gov/search-results-detail/360534">https://www.grants.gov/search-results-detail/360534</a> (R33)	Up to \$150,000 per year, for up to 3 years (R61) Up to \$300,000 per year, for up to 3 years (R33)	Multiple deadlines; NOFOs open through 11/10/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>CANCER</b>		
11.	Forecast: Radiation Oncology-Biology Integration Network (ROBIN) Centers (U54 Clinical Trial Required) (NIH/NCI)  RFA-CA-27-003	This network model will sustain an agile and effective national radiation oncology infrastructure that collectively addresses critical hypothesis-based translational research on the biological basis of responses in cancer patients who undergo radiation treatments. ROBIN supports a collaborative national research network focused on understanding how tumors and normal tissues change biologically during radiation therapy. Because radiation can dynamically alter molecular targets over the course of treatment, the network seeks to generate foundational knowledge that can improve radiation-based cancer care and identify new opportunities for combining radiation with drugs and other therapies. <a href="https://www.grants.gov/search-results-detail/362647">https://www.grants.gov/search-results-detail/362647</a>	TBD	Estimated post date: 8/19/26 Estimated proposal date: 1/25/27
12.	NCI Community Oncology Research Program (NCORP) Research Bases (UG1 Clinical Trial Required), Community Sites, and Academic Community Sites (UG1 Clinical Trials Not Allowed) (NIH/NCI)  RFA-CA-27-006 RFA-CA-27-007 RFA-CA-27-008	The purpose of NCORP is to engage cancer patient populations, those at risk of cancer, and organizations in rigorous studies focused on cancer control, prevention, treatment and care delivery. NCORP is a community-based research network that: Designs and conducts clinical trials and other human subject studies for adults and children in cancer control, prevention, screening, and care delivery; Enhances patient and provider access to treatment and imaging trials. <a href="https://www.grants.gov/search-results-detail/358963">https://www.grants.gov/search-results-detail/358963</a> <a href="https://www.grants.gov/search-results-detail/358964">https://www.grants.gov/search-results-detail/358964</a> <a href="https://www.grants.gov/search-results-detail/359132">https://www.grants.gov/search-results-detail/359132</a>	Dependent upon proposal, for 6 years	Proposal: 9/18/26
13.	Metastasis Research Network (U54 Clinical Trial Not Allowed) (NIH/NCI)  RFA-CA-27-012	This NOFO solicits applications for research on developing a comprehensive and cohesive understanding of cancer metastasis. Each MetNet Center should propose an overarching scientific theme that will be pursued through two or three scientific inter- and multidisciplinary basic research projects. <a href="https://www.grants.gov/search-results-detail/360881">https://www.grants.gov/search-results-detail/360881</a>	Up to \$1.3 million per year, for up to 5 years	Proposal: 9/25/26
14.	Informatics Technologies for Cancer Research and Management (U01/U24 Clinical Trial Optional) (NIH/NCI)  RFA-CA-27-019 (U01) RFA-CA-27-020 (U24) RFA-CA-27-021 (U24)	These NOFOs solicit applications for: the development of enabling informatics technologies; advanced development and enhancement of emerging informatics technologies; and advanced development and enhancement of emerging informatics technologies to improve the acquisition, management, analysis, and dissemination of data and knowledge across the cancer research continuum including cancer biology, cancer treatment and diagnosis, early cancer detection, risk assessment and prevention, cancer control and epidemiology. <a href="https://www.grants.gov/search-results-detail/359892">https://www.grants.gov/search-results-detail/359892</a> (U01) <a href="https://www.grants.gov/search-results-detail/359855">https://www.grants.gov/search-results-detail/359855</a> (U24) <a href="https://www.grants.gov/search-results-detail/359853">https://www.grants.gov/search-results-detail/359853</a> (U24)	Up to \$300,000 per year, for up to 3 years (U01) Up to \$600,000 per year, for up to 5 years (U24)	Multiple deadlines; NOFOs open through 10/19/27

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>CANCER</b>		
15.	Gateway for Cancer Research Grant Programs (Gateway)	Gateway exclusively funds Phase I and Phase II research trials, which often mark the first-in-human study of promising new cancer drugs and therapies. This includes rare cancers for which funding is scarce as well as some of the most prevalent cancers affecting men, women and children today. <a href="https://gatewaycr.smapply.org/prog/gfcr_all_grant_programs_-_v122023/">https://gatewaycr.smapply.org/prog/gfcr_all_grant_programs_-_v122023/</a>	Up to \$1.5 million, for up to 5 years	Letter of intent: 11/6/26
		<b>CARDIOVASCULAR AND PULMONARY HEALTH (1)</b>		
16.	HeartShare 2.0: Refining Heart Failure Subtypes and Treatment Targets for Personalized Clinical Trials - Clinical Trial Center and Clinical Centers (U01 Clinical Trial Optional) (NIH/NHLBI)  RFA-HL-27-008	This NOFO solicits applications for a new Clinical Trial Center (CTC) and up to seven Clinical Centers (CCs) for the HeartShare 2.0 program. The CTC will coordinate precision clinical trial activities focused on heart failure with preserved ejection fraction (HFpEF), including master protocol development, project management, recruitment oversight, performance milestones, and scientific conduct of trials. The CCs will recruit and retain heart failure patients and controls. <a href="https://www.grants.gov/search-results-detail/360439">https://www.grants.gov/search-results-detail/360439</a>	Up to \$5.3 million, for up to 6 years (CTC) Up to \$250,000 per year, for up to 6 years (CC)	Proposal: 7/9/26
		<b>CHRONIC PAIN &amp; PAIN MANAGEMENT (1)</b>		
17.	HEAL Initiative: Translating Addiction Epidemiology, Prevention, Treatment, and Recovery Research into Practice (R61/R33 - Clinical Trial Optional) (NIH)  RFA-DA-27-016	The goal of this NOFO is to address the opioid crisis and/or overdose events by supporting action-oriented research, accelerating the translation of addiction epidemiology, prevention, treatment services, and recovery research to practice. Proposed studies may target the individual, provider, organizational, community, or system level. This initiative prioritizes replicable and scalable approaches for accelerating the routine use of effective, evidence-based prevention, treatment and recovery interventions and services. <a href="https://www.grants.gov/search-results-detail/362672">https://www.grants.gov/search-results-detail/362672</a>	Up to \$350,000 per year, for up to 2 years (R61) Up to \$750,000 per year, for up to 5 years (R33)	Multiple deadlines; NOFO open through 2/9/2029
		<b>COGNITIVE AND BRAIN HEALTH (5)</b>		
18.	Public Health Strategies to Address Alzheimer's Disease and Related Dementias: The National Healthy Brain Initiative, BOLD Public Health Centers of Excellence, and Public Health Adoption Accelerator (CDC/NCCDPHP)  CDC-RFA-DP-26-0227	There are three components: 1: National Healthy Brain Initiative will develop & implement public health strategies. 2: BOLD Public Health Centers of Excellence will support the BOLD program, identify, disseminate, and promote best practices, and translate promising research into practical tools and resources. 3: ADRD Public Health Adoption Accelerator will spread and put into practice effective public health strategies, tools, and resources to tackle ADRD. <a href="https://www.grants.gov/search-results-detail/361556">https://www.grants.gov/search-results-detail/361556</a>	Up to \$3 million per year Dependent upon award mechanism	Proposal: 6/26/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>COGNITIVE AND BRAIN HEALTH</b>		
19.	FY26 Traumatic Brain Injury and Psychological Health Research Program (TBIPHRP) (DoD/CDMRP)  HT942526TBIPHRPCTA HT942526TBIPHRPHSRA HT942526TBIPHRPTRA	The TBIPHRP supports innovative, high-impact research with clinical relevance that will optimize the prevention, assessment, and treatment of psychological health conditions and/or traumatic brain injuries. Three awards are posted: Clinical Trial Award; Health Services Research Award; and Translational Research Award. Applications submitted to the FY26 TBIPHRP must address at least one sub-area within the three focus areas: Understand; Prevent and Assess; and Treat. <a href="https://cdmrp.health.mil/funding/tbiphrp">https://cdmrp.health.mil/funding/tbiphrp</a>	Up to \$4.1 million, for up to 4 years Dependent upon award mechanism	Pre-Application: 7/13/26 Proposal: 10/15/26 (CTA/TRA) Pre-Application: 9/24/26 Proposal: 10/15/26 (HSRA)
20.	BRAIN Initiative Connectivity across Scales (BRAIN CONNECTS): Specialized Projects for Scalable Technologies (U01 Clinical Trial Not Allowed) (NIH)  RFA-NS-27-015	This NOFO seeks transformative, cutting-edge, and innovative research that embraces new technologies, ideas, and approaches to understand brain circuit function and contributions to behavior. It is a component of the BRAIN Initiative Connectivity Across Scales (BRAIN CONNECTS) Program, which aims to lay the scientific foundation for the next generation of neural circuit-based approaches for preventing and treating devastating brain disorders. <a href="https://www.grants.gov/search-results-detail/356205">https://www.grants.gov/search-results-detail/356205</a>	Dependent upon proposal, for up to 3 years	Multiple deadlines; NOFO open through 10/4/27
		<b>COMBAT CASUALTY CARE (2)</b>		
21.	Resuscitation and Prevention of Ischemia-Induced Dysfunction (RAPIID) - TA1/TA2 (DoD/DARPA)  DARPA-PS-26-124	The RAPIID program seeks to deliver a transformative, end-to-end resuscitation system that redefines far-forward trauma care. RAPIID aims for this system to be fieldable, usable, and scalable, providing a capability equivalent or superior to stored whole blood in early resuscitation while removing dependence on cold chain and donor logistics. RAPIID seeks to do this by developing a blood analog system (BAS) comprising sequentially administered blood analog components, integrated with ruggedized delivery formats, point-of-care diagnostics, and clinical practice guidelines (CPGs). <a href="https://sam.gov/workspace/contract/opp/13dca662b7da444593550da9d021d533/view">https://sam.gov/workspace/contract/opp/13dca662b7da444593550da9d021d533/view</a>	Dependent upon proposal and available funds	Proposal: 6/24/26
22.	Pre-Announcement: "Autonomous Closed Loop Control Mechanical Ventilation (ACLCLMV)" (MTEC)	This effort focuses on the development of an autonomous closed loop control (ACLCLMV) mechanical ventilator (MV). This device is expected to use advanced algorithms to automatically adjust ventilation settings for closed loop Positive End Expiratory Pressure (PEEP) based on the patient's physiological responses, minimizing the need for manual intervention. The goal is to create a lightweight, durable, and power-efficient ventilator that enhances patient safety and frees up medical personnel for other critical tasks during aeromedical evacuation and prolonged field care scenarios. <a href="https://mtec-sc.org/solicitations/ventilation">https://mtec-sc.org/solicitations/ventilation</a>	TBD, for up to 1 year	TBD

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>COMMUNICATION DISORDERS (1)</b>		
23.	Transformative Non-Invasive/Minimally Invasive Technologies for Imaging the Olfactory System Across Scales (R01 CT Optional) (NIH/NIDCD/NIBIB)  RFA-DC-27-003	This NOFO aims to support the development and/or adaptation of transformative in vivo high-resolution/high specificity imaging of the human olfactory system. recent advances in minimally invasive and non-invasive imaging technologies, such as cell specific biomarkers, fluorescence imaging, specialized endoscopes, optical and acoustic imaging, molecular imaging, and hemodynamic and diffusion imaging have the potential to transform our ability to image and investigate the peripheral and central olfactory system in the living human with superior temporal and spatial resolution and eventually improve diagnostic accuracy of olfactory disorders. <a href="https://www.grants.gov/search-results-detail/359696">https://www.grants.gov/search-results-detail/359696</a>	Up to \$500,000 per year, for up to 5 years	Multiple deadlines; NOFO open through 8/21/28
		<b>DIAGNOSTICS (1)</b>		
24.	Pre-Announcement: “PRimer and prObe Manufacturing PlaTform (PROMPT)” (MTEC)	This upcoming RPP focuses on the development, integration, and demonstration of a fully automated, man-portable, and ruggedized prototype platform for the on-demand, expeditionary manufacturing of clinical-quality nucleic acid primers and probes. This system must be designed for operation in far forward or austere environments by non-specialist personnel. The capability will specifically address critical technology gaps by replacing traditional, hazardous synthesis chemistry with a field-stable alternative and, most critically, integrating novel, on-board capabilities for both the automated purification and quality control validation of the resulting reagents. The successful outcome will be a self-contained system capable of producing sequence-verified, high-purity oligonucleotides from a digital sequence file within hours, thereby enabling a rapid, decentralized diagnostic response to novel biothreats without reliance on traditional laboratory infrastructure or cold chain logistics. <a href="https://mtec-sc.org/solicitations/prompt">https://mtec-sc.org/solicitations/prompt</a>	TBD, for up to 2 years	TBD
		<b>DOWN SYNDROME (3)</b>		
25.	INCLUDE Project: Exploratory/ Developmental Research and Transformative Research Awards (R21/R01 CT Not Allowed), and Clinical Trials Phased Awards for Down syndrome (R61/R33 CT Required) (NIH)  RFA-OD-27-003 (U21) RFA-OD-27-004 (R01) RFA-OD-27-005 (R61/R33)	These NOFOs solicit applications for support of new exploratory and developmental research projects; Transformative Research Award applications to support individual scientists or groups of scientists proposing groundbreaking, exceptionally innovative, original, and/or unconventional research; and clinical trials to treat critical and co-occurring health conditions in individuals with Down syndrome. <a href="https://www.grants.gov/search-results-detail/360653">https://www.grants.gov/search-results-detail/360653</a> (R21) <a href="https://www.grants.gov/search-results-detail/360654">https://www.grants.gov/search-results-detail/360654</a> (R01) <a href="https://www.grants.gov/search-results-detail/360655">https://www.grants.gov/search-results-detail/360655</a> (R61/R33)	Up to \$275,000, for up to 2 years (R21) Up to \$500,000 per year, for up to 5 years (R01) Dependent upon proposal, for up to 5 years (R61/33)	Multiple deadlines; NOFO open through 6/15/28

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>ENDOCRINE &amp; METABOLIC DISEASE (4)</b>		
26.	Kidney Precision Medicine Project Recruitment Sites, Tissue Interrogation Sites, and Central Hub (U01/U24 Clinical Trial Not Allowed) (NIH/NIDDK)  RFA-DK-26-301 (U01) RFA-DK-26-302 (U01) RFA-DK-26-303 (U24)	The Kidney Tissue Atlas Coordinating Center (KTACC) will collaborate with the Central Hub (CH), Recruitment Sites (RS), Tissue Interrogation Sites (TIS), and to obtain and evaluate kidney biopsies from participants with acute kidney injury (AKI) or chronic kidney disease (CKD), create a Kidney Tissue Atlas, define disease subgroups, and identify critical cells, interstitial components, pathways, and targets for novel therapies.  <a href="https://www.grants.gov/search-results-detail/360549">https://www.grants.gov/search-results-detail/360549</a> (U01) <a href="https://www.grants.gov/search-results-detail/360550">https://www.grants.gov/search-results-detail/360550</a> (U01) <a href="https://www.grants.gov/search-results-detail/360552">https://www.grants.gov/search-results-detail/360552</a> (U24)	Up to \$450,000 per year, for up to 5 years (RS) Up to \$1.5 million per year, for up to 5 years (TIS) Up to \$500,000 per year, for up to 5 years (CH)	Proposal: 7/10/26
27.	Continuation of the Cardiovascular Repository for-Type 1 Diabetes (CARE-T1D) Consortium U01 (Open Competition)- Research (U01, Clinical Trial Not Allowed) (NIH/NIDDK/NHLBI)  RFA-DK-27-108	The purpose of this NOFO is to promote collaborative and interdisciplinary research aimed at enhancing the understanding of the development of CVD in individuals with T1D and the differences with CVD in T1D by continuing the efforts of the CARE-T1D consortium.  <a href="https://www.grants.gov/search-results-detail/360626">https://www.grants.gov/search-results-detail/360626</a>	Up to \$500,000 per year, for up to 3 years	Multiple deadlines; NOFO open through 3/10/27
		<b>EPILEPSY (5)</b>		
28.	FY26 Epilepsy Research Program (ERP) (DoD/CDMRP)  HT942526ERPIDA HT942526ERPLRA HT942526ERPSPA HT942526ERPVPTRCL HT942526ERPVPTRCF	The ERP supports innovative, high-impact research to understand the mechanisms of post-traumatic epilepsy and associated comorbidities to improve quality of life, especially for Service Members, Veterans and caregivers. Five awards are posted: Virtual Post-Traumatic Epilepsy Research Center – Leadership Award; Virtual Post-Traumatic Epilepsy Research Center – Faculty Award; Leveraging Research Award; Idea Development Award; and Research Partnership Award. Applications should address one or more of the following focus areas: Markers and Mechanisms of PTE; Epidemiological Characterization of PTE; Longitudinal Studies of PTE Progression; and Innovative Research Tools and Technologies.  <a href="https://cdmrp.health.mil/funding/erp">https://cdmrp.health.mil/funding/erp</a>	Up to \$2 million, for up to 3 years Dependent upon award mechanism	Pre-Application: 8/3/26 Proposal: 8/17/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>GENERAL MEDICAL SCIENCES (1)</b>		
29.	Maximizing Investigators' Research Award (MIRA) for Early Stage Investigators (ESI) (NIH/NIGMS)  PAR-27-032	This award provides support for ESIs with a program of research that aligns with the NIGMS mission. MIRA distributes funding among promising investigators across the country. The goal is to boost scientific productivity and the chances for important breakthroughs. Through this program, investigators can: Receive independent research funding early to start and sustain strong research careers. Explore new, unique research areas in the NIGMS mission. Take on ambitious, creative projects. Shift focus to include emerging techniques and technologies as needed. Devote more time to mentoring trainees in a stable research environment. <a href="https://www.grants.gov/search-results-detail/360593">https://www.grants.gov/search-results-detail/360593</a>	Up to \$275,000 per year, for up to 5 years	Multiple deadlines; NOFO open through 2/6/29
		<b>GENOMICS (2)</b>		
30.	Forecast: ancient DNA for Modern Genomics (aDMG) Research Projects (U01 Clinical Trials Not Allowed) (NIH/NHGRI)  RFA-HG-28-003	This NOFO will solicit applications to establish an ancient DNA for Modern Genomics (aDMG) program. The goal of aDMG is to establish an ethical resource of ancient and historical human DNA (aDNA) data to advance studies about contemporary human traits and biology. This NOFO aims to solicit applications that will leverage existing and newly generated aDNA data from this consortium to advance the biological and epidemiological understanding of modern human diseases and health-related traits by integrating aDNA with modern human and other species' data. <a href="https://www.grants.gov/search-results-detail/362639">https://www.grants.gov/search-results-detail/362639</a>	TBD	Estimated post date: 8/3/27 Estimated proposal date: 2/1/28
31.	Forecast: Limited Competition: The NHGRI Analysis, Visualization, and Informatics Lab-space (AnVIL) (U54 Clinical Trial Not Allowed) (NIH/NHGRI)  RFA-HG-28-005	This NOFO will support a limited competition renewal of the AnVIL program. AnVIL is a secure, cloud-based platform that enables researchers to access, share, and analyze large-scale genomic datasets without relying on local infrastructure. Currently, AnVIL hosts more than 5 petabytes of data from nearly 300,000 research participants, providing a robust environment for reproducible, cloud-native genomic research. <a href="https://www.grants.gov/search-results-detail/362638">https://www.grants.gov/search-results-detail/362638</a>	Total funding of \$8 million	Estimated post date: 2/1/27 Estimated proposal date: 5/25/28
		<b>HEALTH IT &amp; DATA (3)</b>		
32.	Forecast: Enhancement and Management of Established Biomedical Data Repositories and Knowledgebases (R24 Clinical Trial Not Allowed) (NIH)  PAR-27-103	This NOFO will support established biomedical data repositories and knowledge bases as distinct and separate resources that have demonstrated impact and have potential for continued benefit to the community served. <a href="https://www.grants.gov/search-results-detail/362355">https://www.grants.gov/search-results-detail/362355</a>	TBD	Estimated post date: 7/24/26 Estimated proposal date: 9/25/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>HEALTH IT &amp; DATA</b>		
33.	Forecast: The NIA Genetics of Alzheimer's Disease Data Storage Site (NIAGADS) (NIH/NIA)  RFA-AG-27-005	This NOFO will solicit applications to develop, operate, and sustain a cloud-based data storage and computing platform that democratizes access to large-scale Alzheimer's disease (AD) and AD-related dementias (ADRD) genetic and genomic data. The platform must be secure, scalable, and interoperable. The platform will support the NIA Genetics of Alzheimer's Disease Data Storage Site (NIAGADS), the primary NIA-supported repository for the archiving and distribution of human genetic data related to AD/ADRD. <a href="https://www.grants.gov/search-results-detail/362454">https://www.grants.gov/search-results-detail/362454</a>	TBD	Estimated post date: 9/1/26 Estimated proposal date: 11/1/26
34.	HEAL INITIATIVE: INTERACT Data Coordination and Integration Center (U24 Clinical Trial Not Allowed) (NIH)  RFA-AR-27-002	This Center will support the coordination and integration of data from both the HEAL INTERACT program and progressively facilitate broader integration of related musculoskeletal datasets and programs. The Data Coordination and Integration Center will lead efforts for managing and integrating complex pain-associated data types and information from the INTERACT Consortium and progressively related datasets <a href="https://www.grants.gov/search-results-detail/358939">https://www.grants.gov/search-results-detail/358939</a>	Dependent upon proposal, for up to 5 years	Proposal: 10/1/26
		<b>HIV/AIDS (2)</b>		
35.	Forecast: Integrated Specific Pathogen Free Research Models and Human New Approach Methodologies to Advance HIV/AIDS Research (U42 Clinical Trial Not Allowed) (NIH/ORIP)  PAR-28-019	This NOFO is issued during a period of accelerating development, validation, and adoption of human new approach methodologies (NAMs). Accordingly, it has two integrated priorities for NIH-funded HIV/AIDS research: (1) implementation of a NAMs-enabled stewardship framework, including optional HIV-relevant human in vitro testing support and pilot benchmarking activities, to reduce or replace specific pathogen free (SPF) in vivo model use where scientifically appropriate without compromising rigor, reproducibility, or translational relevance; and (2) support for high-quality SPF colony resources for studies in which well-characterized in vivo models remain scientifically necessary. <a href="https://www.grants.gov/search-results-detail/362488">https://www.grants.gov/search-results-detail/362488</a>	Up to \$2,725,311	Estimated post date: 11/24/26 Estimated proposal date: 1/25/27
36.	Using Archived Data and Specimen Collections to Advance Maternal and Pediatric HIV/AIDS Research (R21 CT Not Allowed) (NIH/NICHD/NIMH)  RFA-HD-27-007	This initiative will support secondary data analyses using archived HIV/AIDS data and specimens. The goal of this initiative is to encourage the scientific community to utilize HIV/AIDS archived data sets and specimen collections to answer important questions about the epidemiology, pathogenesis, treatment, clinical manifestations, and HIV-associated co-infections and co-morbidities in maternal, pediatric and adolescent populations. <a href="https://www.grants.gov/search-results-detail/359945">https://www.grants.gov/search-results-detail/359945</a>	Up to \$275,000, for up to 2 years	Multiple deadlines; NOFO open through 10/20/28

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>IMMUNOLOGY &amp; INFECTIOUS DISEASE (3)</b>		
37.	Immune Mechanisms of Protection Against Mycobacterium tuberculosis Center (IMPAC-TB) (NIH/NIAID)  BAA-75N93026R00008	The objective of this solicitation is to accelerate tuberculosis (TB) vaccine development by supporting research that characterizes both tissue-specific and systemic protective immune responses that prevent or contain Mycobacterium tuberculosis (Mtb) infection, and the advancement of tools and resources that facilitate TB vaccine development (e.g., biological models, new approach methodologies [NAMs] such as organoids and in vitro systems, computational and modeling platforms). This program will continue to support the comprehensive understanding of protective immunity to Mtb and the impact of Human Immunodeficiency Virus/Simian Immunodeficiency Virus (HIV/SIV) infection on responses to Mtb and TB vaccines. <a href="https://sam.gov/workspace/contract/opp/23e401fd58c84f22bb5fe9dec6539f48/view">https://sam.gov/workspace/contract/opp/23e401fd58c84f22bb5fe9dec6539f48/view</a>	TBD	Proposal: 9/1/26
38.	RFI: Protection Before Day One Vaccine: Advancing Broadly Protective Seasonal Influenza Vaccines with Pandemic Coverage (BARDA/RRPV)  RFI-26-08-PBD1	This RFI seeks information on vaccine candidates and enabling approaches intended to function as Day One influenza vaccines, defined as: Potential to be routinely administered as a seasonal influenza vaccine Demonstrating non-inferior or improved seasonal protection compared to currently licensed seasonal vaccines Providing inferred or demonstrated cross-protection against one or more potential influenza subtypes; e.g., H2, H5, H7, H9. <a href="https://www.rpv.org/solicitation/rfi-protection-before-day-one-vaccine-advancing-broadly-protective-seasonal-influenza-vaccines-with-pandemic-coverage/">https://www.rpv.org/solicitation/rfi-protection-before-day-one-vaccine-advancing-broadly-protective-seasonal-influenza-vaccines-with-pandemic-coverage/</a>	N/A	Response: 7/15/26
39.	RFI: AI-Enabled Discovery of Broad-Spectrum Small-Molecule Inhibitors for Filoviruses (BARDA/RRPV)  RRPV-AVAT_PATH-SM	This RFI aims to conduct market research to identify organizations with capabilities in AI for application in the discovery and advancement of broad-spectrum, small-molecule therapeutics targeting filoviruses. It seeks information regarding technical capabilities, infrastructure, relevant experience, and recommended approaches for the application of AI and advanced computational methodologies across the therapeutic development lifecycle. Areas of interest include AI-driven therapeutic design and optimization, in vitro validation of candidate hits, and early preclinical proof-of-concept evaluation. <a href="https://www.rpv.org/solicitation/rfi-ai-enabled-discovery-of-broad-spectrum-small-molecule-inhibitors-for-filoviruses/">https://www.rpv.org/solicitation/rfi-ai-enabled-discovery-of-broad-spectrum-small-molecule-inhibitors-for-filoviruses/</a>	N/A	Response: 6/17/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>MEDICAL COUNTERMEASURES (1)</b>		
40.	Request for Project Proposals: New Approach Methodologies (NAMs) (DoD/Army)  W911SR-26-9-NAMS	JPL-CBRN-ET-ATP is seeking proposals for NAMs that provide actionable data on CBRN threat agent pathology or CBRN medical countermeasure development. Some specific goals include 1) reducing reliance on animal models, 2) de-risk MCM development against CBRN threats, and 3) reducing timelines of MCM development. Example approaches include the prediction of immunogenicity of biologics in humans, replacement of key pharmacologic and toxicologic tests now conducted in animals, and testbed capabilities that would allow assessments of MCMs in parallel to ongoing or historic MCM development programs. <a href="https://sam.gov/workspace/contract/opp/1e5d35c9d1924c32a339e1dof4d4f953/view">https://sam.gov/workspace/contract/opp/1e5d35c9d1924c32a339e1dof4d4f953/view</a>	Dependent upon proposal and available funds	Proposal: 6/12/26
		<b>MENTAL HEALTH (2)</b>		
41.	Optimizing Behavioral Sleep Interventions for Adolescents and Young Adults (R34 Clinical Trial Required) (NIH/NIMH)  RFA-MH-27-140	NIMH seeks applications for pilot research to adapt, optimize, and test behavioral interventions that address common sleep problems in adolescents and young adults with or at risk for a mental health disorder. This NOFO supports pilot clinical trials designed to evaluate the feasibility, tolerability, acceptability, safety, and potential effectiveness of the approach in real world settings. <a href="https://www.grants.gov/search-results-detail/359159">https://www.grants.gov/search-results-detail/359159</a>	Up to \$450,000, for up to 3 years	Proposal: 10/22/26
42.	Advancing Research on Empirically-Supported Interventions for Older Adults Living with Serious Mental Illness (SMI) (R01 Clinical Trial Optional) (NIH/NIMH)  RFA-MH-27-180	This NOFO aims to foster research that will inform and support the optimization, delivery, sustainability, and effectiveness of empirically-supported practices for addressing the mental health needs of older adults with serious mental illness (SMI). To this end, NIMH seeks applications that propose work that is focused on practice-relevant questions and conducted within and/or across settings where older adults with SMI are likely to be identified as needing care. <a href="https://www.grants.gov/search-results-detail/359201">https://www.grants.gov/search-results-detail/359201</a>	Dependent upon proposal, for up to 5 years	Proposal: 10/15/26
		<b>MILITARY BURN (3)</b>		
43.	FY26 Military Burn Research Program (DoD/CDMRP)  HT942526MBRPDA HT942526MBRPPCRA HT942526MBRPTDA	The MBRP supports innovative, high-impact research with clinical relevance that will support military-relevant burn trauma care. Three awards are posted: Discovery Award; Technology/Therapeutic Development Award; and Patient Centered Research Award. Applications must address one or more of the appropriate focus areas. <a href="https://cdmrp.health.mil/funding/mbrp">https://cdmrp.health.mil/funding/mbrp</a>	Up to \$1.8 million, for up to 4 years Dependent upon award mechanism	Pre-Application: 7/7/26 Proposal: 10/21/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>ORAL HEALTH (1)</b>		
44.	Causal Hypotheses on the Oral-Systemic Health Impacts of Human Behaviors among People with Chronic Conditions (U01 Clinical Trial Not Allowed) (NIH/NIDCR)  PAR-27-057	This NOFO invites applications for innovative research on the factors that cause human behaviors and the oral-systemic health impacts of those behaviors to enhance health, lengthen life, and reduce illness and disability among people with chronic conditions. <a href="https://www.grants.gov/search-results-detail/360160">https://www.grants.gov/search-results-detail/360160</a>	Up to \$500,000 per year, for up to 5 years	Multiple deadlines; NOFO open through 7/6/29
		<b>PRECISION MEDICINE (1)</b>		
45.	Accelerating Discovery through Partnered Research with All of Us to Analyze Participant Biospecimens (X01 Clinical Trial Not Allowed) (NIH/PRECMED)  PAR-27-069	This announcement solicits applications to access stored blood plasma, blood serum, and extracted DNA from the All of Us Research Program supported Biobank to advance the program's mission of accelerating health research and medical breakthroughs, enabling individualized prevention, treatment, and care for all of us. <a href="https://www.grants.gov/search-results-detail/361104">https://www.grants.gov/search-results-detail/361104</a>	Research support only (X01)	Proposal: 3/1/27
		<b>RECONSTRUCTIVE TRANSPLANT (1)</b>		
46.	Forecast: FY26 Reconstructive Transplant Research Program (RTRP) (DoD/CDMRP)  HT942526RTRPCA	The RTRP aims to advance science and clinical practice of vascularized composite allotransplantation, or VCA. One award, the Concept Award, is anticipated. All applications must address one or more of <a href="#">the focus areas</a> . <a href="https://cdmrp.health.mil/pubs/press/2026/rtrppreann">https://cdmrp.health.mil/pubs/press/2026/rtrppreann</a>	Up to \$200,000, for up to 18 months	TBD
		<b>REPRODUCTIVE HEALTH (1)</b>		
47.	Biological Testing Facility for Contraception & Reproductive Health (X01 Clinical Trial Not Allowed) (NIH/NICHD)  PAR-27-111	This NOFO provides investigators with a mechanism to request services from the state-of-the-art Biological Testing Facility that would advance their contraceptive development or reproductive health programs. This NOFO aims to position innovative and validated methods for future regulatory submission and/or clinical development. <a href="https://www.grants.gov/search-results-detail/360583">https://www.grants.gov/search-results-detail/360583</a>	Research support only (X01)	Multiple deadlines; NOFO open through 5/7/29

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>SMALL BUSINESS DEVELOPMENT (7)</b>		
48.	DoW SBIR 2026 BAA Release 3 (DoD)  DoD SBIR 2026 BAA	Topics include: Real-Time Pathogen-Host Interactome Prediction; Engineering Sleep for Cognitive Performance; Field Speciation of Ultrafine to Coarse Particulate; and Open Architecture OEM Real-time Ultrafine Particulate Sensor. <a href="https://www.dodsbirsttr.mil/topics-app/">https://www.dodsbirsttr.mil/topics-app/</a>	Up to \$209,575, for up to 6 months (Phase I) Up to \$1.397 million, for up to 2 years (D2P2)	Proposal: 7/22/26
49.	NIH, CDC and FDA Small Business Innovation Research Grant (Parent SBIR [R43/R44] Clinical Trial Optional) (NIH/CDC/FDA)  PA-27-100	This NOFO supports a small business to do the research and development (R&D) needed to develop a commercial product. The small business should propose to do the majority of the research or analytical effort, and the Program Director/Principal investigator (PD/PI) should be primarily employed by the small business. <a href="https://www.grants.gov/search-results-detail/359671">https://www.grants.gov/search-results-detail/359671</a>	Dependent upon phase and NIH component	Multiple deadlines; NOFO open through 4/5/27
50.	NIH Small Business Innovation Research (SBIR) Phase IIB Strategic Breakthrough Award (Parent [R44] CT Optional) (NIH/CDC)  PA-27-101	This SBIR Phase IIB Strategic Breakthrough NOFO provides previous NIH SBIR or STTR Phase II recipients support to bridge the gap between the Phase II and commercialization. Applicants must secure 100% third-party matching funds for the proposed Phase IIB Strategic Breakthrough award project. <a href="https://www.grants.gov/search-results-detail/359758">https://www.grants.gov/search-results-detail/359758</a>	Dependent upon NIH component	Multiple deadlines; NOFO open through 4/5/29
51.	NIH Small Business Technology Transfer Grant (Parent STTR [R41/R42] CT Not Allowed) (NIH)  PA-27-102	This NOFO supports a small business to do the research and development (R&D) needed to develop a commercial product in partnership with a non-profit research institution. STTR projects are required to have a formal collaboration with a nonprofit research institution, such as a university. <a href="https://www.grants.gov/search-results-detail/359757">https://www.grants.gov/search-results-detail/359757</a>	Dependent upon phase and NIH component	Multiple deadlines; NOFO open through 4/5/27
52.	Forecast: Small Business Transition Grant for New Entrepreneurs (Parent R41/R42/R43/R44 CT Optional) (NIH)  PAR-27-039 PAR-27-040	These NOFOs will support early-career scientists as they transition into entrepreneurship. In addition to funding research and development efforts at the SBC, a major component of this NOFO is entrepreneurial training, mentoring, and career development of the PD/PI. <a href="https://www.grants.gov/search-results-detail/362576">https://www.grants.gov/search-results-detail/362576</a> <a href="https://www.grants.gov/search-results-detail/362577">https://www.grants.gov/search-results-detail/362577</a>	TBD	Estimated post date: 11/5/26 Estimated proposal date: 1/5/27

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>SMALL BUSINESS DEVELOPMENT</b>		
53.	SBIR/STTR Commercialization Readiness Pilot (CRP) Program (Parent SB1 Clinical Trial Optional) (NIH)  PAR-27-098	The NOFO aims to facilitate the transition of previously or currently funded SBIR and STTR Phase II and Phase IIB projects to the commercialization stage by providing additional support for technical assistance and later stage research and development (R&D) not typically supported through Phase II or Phase IIB grants or contracts. This may include independent replication of key studies, Investigational New Drug (IND)-enabling studies, clinical studies, manufacturing costs, regulatory assistance, or a combination of services. <a href="https://www.grants.gov/search-results-detail/359669">https://www.grants.gov/search-results-detail/359669</a>	Dependent upon phase and NIH component	Estimated post date: 6/1/26 Estimated proposal date: 9/5/26
		<b>SUBSTANCE USE DISORDER (1)</b>		
54.	Establishing a Center for the Advancement of Substance Use Disorder (SUD) Pharmacotherapeutics through Training and Preclinical Support (U54 Clinical Trial Not Allowed) (NIH/NIDA)  RFA-DA-27-015	This NOFO will establish a Center that educates and mentors researchers in formal product development for new substance use disorder (SUD) pharmacotherapeutics and to advance the best concepts through initial experiments via technical and financial support. <a href="https://www.grants.gov/search-results-detail/360380">https://www.grants.gov/search-results-detail/360380</a>	Dependent upon proposal, for up to 5 years	Proposal: 9/30/26
		<b>THERAPEUTICS (2)</b>		
55.	ASGCT Career Development Awards (ASGCT)	ASGCT will award a \$100,000 Career Development Award in each of the following six broad topics (up to six total grants): Viral Vector Development; Gene Targeting and Gene Correction; Oligonucleotide Therapeutics; Cell Therapies; Immunological Aspects of Gene Therapy and Vaccines; and Synthetic/Molecular Conjugates and Physical Methods for Delivery of Gene Therapeutics. Three foundations will also support awards: Cystic Fibrosis Foundation; Foundation for Angelman's Syndrome Therapeutics; and Focused Ultrasound Foundation. <a href="https://www.asgct.org/education-career-resources/grants-funding-awards/career-development-award">https://www.asgct.org/education-career-resources/grants-funding-awards/career-development-award</a>	\$100,000 for 1 year	Proposal: 8/1/26
56.	Targeting RNA in Disease with Novel Technologies (TRDNT) Challenge (NIH Common Fund)	This challenge is intended to encourage new approaches to therapeutic development, especially for diseases linked to RNA dysfunction or diseases driven by difficult-to-drug proteins that may be addressed upstream at the RNA level. <a href="https://www.trdntchallenge.com/">https://www.trdntchallenge.com/</a>	Total funding of \$13.1 million	Proposal: 7/15/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>TOXIC EXPOSURES (3)</b>		
57.	FY26 Toxic Exposures Research Program (DoD/CDMRP)  <a href="#">HT942526TERPCTA</a> <a href="#">HT942526TERPIIRA</a> <a href="#">HT942526TERPTRA</a>	The TERP supports innovative, high-impact research with clinical relevance that will improve the health and quality of life and mitigate risks for those impacted by military-related toxic exposures. Three awards are posted: Clinical Trial Award; Investigator-Initiated Research Award; and Translational Research Award. Applications must address one or more of the program goals: Predict and prevent; Diagnose; and Treat. They must also address one or more of the topic areas: Neurotoxin Exposure; Gulf War Illness and Its Treatment; Airborne Hazards and Burn Pits; Other Military Service-Related Toxic Exposures.  <a href="https://cdmrp.health.mil/funding/terp">https://cdmrp.health.mil/funding/terp</a>	Up to \$4.5 million, for up to 4 years Dependent upon award mechanism	Pre-Application: 8/19/26 Proposal: 11/19/26
		<b>VISION RESEARCH (1)</b>		
58.	Sources Sought: Novel and Enhanced Modalities for Optic Nerve Imaging (ARPA-H)  <a href="#">ARPA-H-SS-26-157</a>	Fundamental to whole eye transplantation is the reattachment of the donor optic nerve to the recipient's optic nerve and regrowth of donor retinal ganglion cells through the recipient optic nerve to the visual centers of the brain. To address the unique problem of visualizing nerve regrowth, the agency is seeking sources with information, interest, and capabilities on novel and enhanced modalities for non-invasive optic nerve imaging.  <a href="https://sam.gov/workspace/contract/opp/oca7f504f6b8486e9805cd385edoaff/view">https://sam.gov/workspace/contract/opp/oca7f504f6b8486e9805cd385edoaff/view</a>	N/A	Response: 6/10/26

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>ADVANCED RESEARCH PROJECTS AGENCY FOR HEALTH (4)</b>		
59.	Resilient Systems Office (RSO) Mission Office Innovative Solutions Opening (ISO)  ARPA-H-SOL-24-103	RSO is interested in innovations that take a systems level approach in areas including, but not limited to, systems biology, data systems, biophysical systems, health IT systems, sociotechnical systems, health-related systems engineering, and other systems with the potential to improve health outcomes.  <a href="https://sam.gov/workspace/contract/opp/36eb58892e1f49f897c81d87ff7a95fe/view">https://sam.gov/workspace/contract/opp/36eb58892e1f49f897c81d87ff7a95fe/view</a>	Dependent upon proposal and award mechanism	Proposal: 3/5/29
60.	Health Science Futures (HSF) Mission Office Innovative Solutions Opening (ISO)  ARPA-H-SOL-24-104	HSF awardees will develop innovative technologies, tools, and platforms that can be applied to a broad range of diseases. The following interest areas define the ground-breaking research we seek to support: Breakthrough Technologies; Transformative Tools; and Platform Systems.  <a href="https://sam.gov/workspace/contract/opp/29c3ac2ea6754d1f897f9c71204c0eea/view">https://sam.gov/workspace/contract/opp/29c3ac2ea6754d1f897f9c71204c0eea/view</a>	Dependent upon proposal and award mechanism	Proposal: 3/5/29
61.	Scalable Solutions Office (SSO) Mission Office Innovative Solutions Opening (ISO)  ARPA-H-SOL-24-105	ARPA-H SSO seeks solutions to improve the scalability and affordability of health care solutions, bridge gaps in underserved areas, and extend remote access to expertise by developing location-specific interventions, telemedicine solutions, and mobile health clinics. Solutions should focus on rapid innovation and the use of partnerships, also flexible distribution networks and streamlined manufacturing processes. SSO interest areas include: Advanced Technologies for Medical Product and Capability Distribution; and Biomanufacturing Innovations.  <a href="https://sam.gov/workspace/contract/opp/c79dfo57a7e44d2cb3072e4ce3307422/view">https://sam.gov/workspace/contract/opp/c79dfo57a7e44d2cb3072e4ce3307422/view</a>	Dependent upon proposal and award mechanism	Proposal: 3/5/29
62.	Proactive Health Office (PHO) Mission Office Innovative Solutions Opening (ISO)  ARPA-H-SOL-24-106	The Proactive Health Office (PHO) at ARPA-H is seeking solutions to improve the healthspan and health outcomes of Americans prior to the onset of disease and/or the development of diminished quality of life from illness. Interest areas include: Novel prevention, detection and prophylactic treatment methods for disease; Population-level approaches to increase the adoption of prevention and wellness behaviors; and System innovation for the delivery of proactive health outcomes.  <a href="https://sam.gov/workspace/contract/opp/a5b72db5139040f8b2a1dcc2d2c96733/view">https://sam.gov/workspace/contract/opp/a5b72db5139040f8b2a1dcc2d2c96733/view</a>	Dependent upon proposal and award mechanism	Proposal: 3/5/29

	Title (Agency) and Opportunity #	Description and Link	Funding Level	Deadline
		<b>AIR FORCE (4)</b>		
63.	Continuing Human Enabling, Enhancing, Restoring and Sustaining (CHEERS)  FA238424S2233	CHEERS MAA is intended to provide a comprehensive strategy for AFRL/RH and USAFSAM's range of S&T, allowing for progression from basic research to technology maturation and transition. Areas of interest include: Aerospace Medicine and Physiology; Public Health and Preventative Medicine; Occupational Medicine and Bioenvironmental Engineering; and En Route Care/Expeditionary Medicine/Prolonged Field Care.  <a href="https://sam.gov/opp/4caa8d320fb24050b389fe721296a13d/view">https://sam.gov/opp/4caa8d320fb24050b389fe721296a13d/view</a>	Dependent upon proposal and award mechanism	White papers accepted on a rolling basis
64.	AFRL/RX Functional Materials Open BAA  FA8650-22-S-5002	The Functional Material Open BAA seeks to exploit innovative functional materials that enable new warfighting capabilities, significantly improve the effectiveness of warfighters and their current and future systems and solve urgent operational needs. The Biomaterials Materials and Processes (BM&P) Research area seeks to accelerate materials development, protect assets from the environment, and enable airman performance. This research area harnesses materials and processes competencies in soft matter materials characterization, molecular and synthetic biology, microbiology, biochemistry, bioinformatics, machine learning, multiscale modeling, bioelectronics, bio- functionalization, and biological engineering to create materials not easily achievable through traditional chemical synthesis or additive manufacturing.  <a href="https://sam.gov/opp/2fad41c2700409c993a8c308c6f5120/view">https://sam.gov/opp/2fad41c2700409c993a8c308c6f5120/view</a>	Dependent upon proposal and award mechanism	White paper: 10/28/28
65.	Research Interests of the Air Force Office of Scientific Research  FA9550-26-S-0001	The focus of AFOSR is on research areas that offer significant and comprehensive benefits to our national war fighting and peacekeeping capabilities. The Chemistry and Biological Sciences Team is responsible for research activities in chemistry and biological sciences. The focus is on complex materials, microsystems and structures and well as systems of a biological natural by incorporating hierarchical design of mechanical and functional properties from the nanoscale through the mesoscale, ultimately leading to controlled well- understood chemistry/biochemistry, and material or structural behavior capable of dynamic functionality and/or performance characteristics to enhance mission versatility.  <a href="https://grants.gov/search-results-detail/362681">https://grants.gov/search-results-detail/362681</a>	Dependent upon proposal, for up to 5 years	White papers accepted on a rolling basis
66.	Research Interests of the United States Air Force Academy  USAFA-BAA-2021	USAFA invites white papers and proposals for research in many broad areas, under the direction of several research centers. One such center, is the Life Sciences Research Center (LSRC). LSRC intrigued by biomaterials found in nature, which use unique biologic design principles and processes to form novel structures. The USAF requires lighter, tougher materials, which can hold up under extreme temperature, pressure or loading conditions.  <a href="https://www.grants.gov/search-results-detail/330175">https://www.grants.gov/search-results-detail/330175</a>	Dependent upon proposal, for up to 5 years	Proposals accepted on a rolling basis

		<b>ARMY (10)</b>		
67.	The Joint Program Executive Office for Chemical, Biological, Radiological, and Nuclear Defense Broad Other Transaction Authority Announcement (BOTAA)  BOTAA-24-01	JPEO-CBRND is interested in efforts directed toward the development of enabling technologies that speed up the advanced development process. Areas of interest include: Software and Artificial Intelligence (AI), wearable sensors, threat detection, biothreat containment and aeromedical evaluation. <a href="https://sam.gov/opp/2d04622b25364669857a6a61c576ade9/view">https://sam.gov/opp/2d04622b25364669857a6a61c576ade9/view</a>	Dependent upon proposal	Preproposals accepted through 2/7/29
68.	BAA R&D in Support of the Joint Program Executive Office for Chemical, Biological, Radiological, and Nuclear Defense (JPEO-CBRND), JPM Medical and JPL EB  CBRND-BAA-22-01	The JPMO is interested in studies on new and better ways to develop medical CBRN countermeasures more rapidly and with increased efficiency through enabling technologies, life cycle bioinformatics, and improved logistics tracking. Mission areas include: Biological Medical Prophylaxis; Medical, Chemical, and Biological Countermeasures; Medical Radiological Countermeasures; Medical Diagnostic and Surveillance Systems; and Enabling Biotechnologies and Response Systems. <a href="https://sam.gov/opp/e7c3faad3433434aaf41a5eb5ce11920/view">https://sam.gov/opp/e7c3faad3433434aaf41a5eb5ce11920/view</a>	Dependent upon proposal	Proposals accepted on a rolling basis through 12/31/2060
69.	USAMRDC Broad Agency Announcement for Extramural Medical Research  HT9425-23-S-BAA1	R&D funded by this BAA are expected to benefit and inform both military and civilian medical practice and knowledge. Research areas include: Military Infectious Disease; Combat Casualty Care; and Military Operational Medicine. <a href="https://www.grants.gov/search-results-detail/343725">https://www.grants.gov/search-results-detail/343725</a>	Dependent upon proposal, for up to 5 years	Pre-applications accepted until 9/30/27 Full proposal by invitation
70.	USSOCOM BAA for Extramural Biomedical and Human Performance Research and Development  HT9425-23-S-SOC1	A primary emphasis of the USSOCOM Biomedical, Human Performance, and Canine Research Program is to identify and develop techniques, knowledge products, and materiel for early intervention in life-threatening injuries; PFC; human performance optimization; canine medicine/performance; brain health; immune response; automation of systematic reviews and metanalysis; and novel post-traumatic stress, depression, and anxiety treatment. SOF medical personnel place a premium on medical equipment that is small, lightweight, ruggedized, modular, multi-use, and designed for operation in extreme environments. <a href="https://www.grants.gov/search-results-detail/349586">https://www.grants.gov/search-results-detail/349586</a>	Dependent upon proposal	Proposals accepted through 7/31/28 Submission of a pre-proposal is required
71.	Medical CDID BAA  MED CDID	MED CDID invites innovative proposals that allow future Army medical units to efficiently and effectively clear the battlefield (evacuation of wounded, ill, and injured), maximize return to duty, and overcome contested logistics (medical resupply). <a href="https://vulcan-sof.com/login/ng2/submission?collectionUuid=5417cc3c-2b60-446a-addf-cobe38cd0b1">https://vulcan-sof.com/login/ng2/submission?collectionUuid=5417cc3c-2b60-446a-addf-cobe38cd0b1</a>	Dependent upon proposal	White papers accepted through 12/31/2030

		<b>ARMY</b>		
72.	Army Research Office Laboratory Broad Agency Announcement for Foundational Research  W911NF-23-S-0001	ARL's foundational research mission spans basic research and applied research but may include advanced technology development and advanced component development and prototypes when opportunities arise to directly or indirectly help achieve ARL's mission. Topics include Biotronics, Genetics, and Neurophysiology of Cognition; the full list of research topics is available here: <a href="https://www.arl.army.mil/opportunities/arl-baa/">https://www.arl.army.mil/opportunities/arl-baa/</a> <a href="https://sam.gov/opp/7560e5d4024b4e94ad3eab6180cfc36/view">https://sam.gov/opp/7560e5d4024b4e94ad3eab6180cfc36/view</a>	Dependent upon proposal	Proposals accepted on a rolling basis until 11/20/27
73.	Army Research Institute for the Behavioral and Social Sciences Broad Agency Announcement for Basic, Applied, and Advanced Research  W911NF-23-S-0010	ARI seeks Applied Research proposals that provide a systematic expansion and application of knowledge to design and develop useful strategies, techniques, methods, tests, or measures that provide the means to meet a recognized and specific Army need. Applied Research precedes specific technology investigations or development and should have high potential to transition into advanced technology. <a href="https://sam.gov/opp/ee8d9eeec4f94269b6e1ac16b09d9417/view">https://sam.gov/opp/ee8d9eeec4f94269b6e1ac16b09d9417/view</a>	Dependent upon proposal	Proposals accepted on a rolling basis until 4/30/28 Full proposal required
74.	Army Applications Lab BAA for Disruptive Applications  W911NF-24-S-0008	AAL is seeking technologies that address a wide range of Army needs consistent with CFT capability focus areas and associated programs and lines of effort as well as potentially disruptive new capabilities that augment or enhance Army capability overmatch. <a href="https://sam.gov/opp/3f8ec6d36d584ca28364a2f8a10255b7/view">https://sam.gov/opp/3f8ec6d36d584ca28364a2f8a10255b7/view</a>	Dependent upon proposal	Proposals accepted through 4/4/29 Pre-proposal is required
75.	Basic and Applied Research at the US Army Combat Capabilities Development Command - Soldier Center  W911QY-25-R-0023	The Soldier Center is seeking solutions in the following scientific and technical areas: Combat Feeding & Equipment; Soldier Protection & Survivability; Modeling & Simulation; Human Performance & Biomechanics; Expeditionary Maneuver Support; Aerial Delivery; and Simulation & Training Technology. <a href="https://sam.gov/opp/e85e373d22ef47018b0336fc6a258002/view">https://sam.gov/opp/e85e373d22ef47018b0336fc6a258002/view</a>	Dependent upon proposal	Concept papers accepted on a rolling basis until 2/27/30
76.	BAA for Chemical, Biological, Radiological, Nuclear, and Explosive Defense Efforts  W911SR-24-R-DEVB	DEVCOM CBC's mission is to provide innovative chemical, biological, radiological, nuclear and explosive (CBRNE) defense capabilities to enable the Joint Warfighters' dominance on the battlefield and interagency defense of the homeland. Mission areas include: Sensor technologies and biomaterials; Biological point detection; Chemical point detection; Early warning and detection; Collective protection; Respiratory protection; Decontamination; CBRN countermeasures; and Chemical biological advanced materials and manufacturing science. <a href="https://sam.gov/opp/85b4747beec740979ac430ee987bda8c/view">https://sam.gov/opp/85b4747beec740979ac430ee987bda8c/view</a>	Dependent upon proposal and award mechanism	Preproposals accepted through 8/20/29
